Abstract: To assist schools in attracting, retaining and motivating effective teachers and principals, in 2006 the U.S. Department of Education launched the Teacher Incentive Fund, which supports comprehensive compensation reform activities including bonus pay-for-performance (PFP), career advancement and professional development. The purpose of this evaluation is to describe the implementation of the program and its relationship to any increases in recruitment and retention of effective teachers and principals. If feasible, this evaluation will also seek to analyze TIF's relationship to increasing student achievement.

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before June 8, 2009.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: April 3, 2009.

Abstract: The Federal Perkins Loan Master Promissory Note (MPN) is a promissory note under which a borrower may receive loans for a single academic year or multiple academic years. The adoption of the MPN in the Perkins Loan Program has simplified the loan process by eliminating the need for institutions to prepare, and students to sign, a promissory note each award year.

DEPARTMENT OF ENERGY

Energy Employees Occupational Illness Compensation Program Act of 2000; Revision to List of Covered Facilities

AGENCY: Department of Energy.

ACTION: Notice of revision of listing of covered facilities.

SUMMARY: The Department of Energy ("Department" or "DOE") periodically

publishes or revises a list of facilities covered under the Energy Employees Occupational Illness Compensation Program Act of 2000, as amended ("EEOICPA" or "Act"). This notice revises the previous lists because (1) Some designated atomic weapons employers (AWE) should not have been so designated; (2) one listed facility's name has changed; and (3) one university was incorrectly designated as a covered facility rather than the laboratory operated by the university. Previous lists or revisions were published on June 28, 2007, November 30, 2005, August 23, 2004, July 21, 2003, December 27, 2002, June 11, 2001, and January 17, 2001.

FOR FURTHER INFORMATION CONTACT:

Patricia R. Worthington, PhD, Director, Office of Health and Safety (HS-10), (301) 903-5926.

ADDRESSES: The Department welcomes comments on this notice. Comments should be addressed to: Patricia R. Worthington, PhD, Director, Office of Health and Safety (HS-10), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585.

SUPPLEMENTARY INFORMATION:

Purpose

The Act establishes a program to provide compensation to certain employees who develop illnesses as a result of their employment with DOE, its predecessor Agencies, certain of its contractors and subcontractors and listed beryllium vendors. Section 3621 of the Act (codified at 42 U.S.C. 7384l) defines an AWE as "an entity, other than the United States, that—(A) processed or produced, for use by the United States, material that emitted radiation and was used in the production of an atomic weapon, excluding uranium mining and milling; and (B) is designated by the Secretary of Energy as an [AWE] for the purposes of the compensation program." Section 3621 defines an AWE facility as "a facility, owned by an [AWE], that is or was used to process or produce, for use by the United States, material that emitted radiation and was used in the production of an atomic weapon, excluding uranium mining or milling." The Act defines a DOE facility, in pertinent part, as "any building, structure, or premise, including the grounds upon which such building, structure, or premise is located—(A) in which operations are, or have been, conducted by, or on behalf of, the Department of Energy * * *; and (B) with regard to which the Department of Energy has or had—(i) a proprietary

interest; or (ii) entered into a contract with an entity to provide management and operation, management and integration, environmental remediation services, construction, or maintenance services."

It has recently come to the attention of the Department that (1) Certain entities were previously mistakenly designated as AWEs because the designated entities were Agencies of the U.S. Government and the statutory definition of an AWE excludes the United States; (2) one listed facility has changed its name; and (3) one university was incorrectly designated as a covered facility rather than the laboratory operated by the university.

This notice formally makes the following changes to the list:

- Albany Research Center in Albany, Oregon, is no longer designated as an AWE, but will keep its designation as a DOE facility;
- General Electric in Cincinnati/Evandale, Ohio, is no longer designated as an AWE, but will keep its designation as a DOE and beryllium (Be) facility;
- Granite City Steel in Granite City, Illinois, will now be listed as General Steel Industries (also known as Granite City Steel) because the facility was named General City Steel for the majority of the covered period;
- The University of California in Berkeley, California, is no longer designated as a covered facility (AWE nor DOE). The University of California is the management and operating contractor for Lawrence Berkeley National Laboratory (LBNL) and any University of California facilities that may have been used for weapons development are now covered under the LBNL facility.

Issued in Washington, DC, on March 31, 2009.

Glenn S. Podonsky,

*Chief Health, Safety and Security Officer,
Office of Health, Safety and Security.*
