#### **SUPPLEMENTARY INFORMATION:**

#### **PRA Approval of Forms Used by Individual Taxpayers**

Under the PRA, OMB assigns a control number to each "collection of information" that it reviews and approves for use by an agency. The PRA also requires agencies to estimate the burden for each collection of information. The burden estimates for each control number are displayed in (1) the PRA notices that accompany collections of information, (2) **Federal Register** notices such as this one, and (3) OMB's database of approved information collections.

The Individual Taxpayer Burden Model (ITBM) estimates burden experienced by individual taxpayers when complying with the Federal tax laws. The ITBM's approach to measuring burden focuses on the characteristics and activities of individual taxpayers in meeting their tax return filing compliance obligation. Key determinants of taxpayer burden in the model are the way the taxpayer prepares the return, e.g., with software or paid preparer, and the taxpayer's activities, e.g., recordkeeping and tax planning.

Burden is defined as the time and out-of-pocket costs incurred by taxpayers in complying with the Federal tax system. Time expended and out-of-pocket costs incurred are estimated separately. The methodology distinguishes among preparation methods, taxpayer activities, types of individual taxpayer, filing methods, and income levels. Indicators of tax law and administrative complexity as reflected in tax forms and instructions are incorporated in the model. The preparation methods reflected in the model are:

- Self-prepared without software.
- Self-prepared with software.
- Used a paid preparer.

The types of taxpayer activities reflected in the model are:

- Recordkeeping.
- Form completion.
- Form submission (electronic and paper).
- Tax planning.
- Use of services (IRS and paid professional).
- Gathering tax materials.

The methodology incorporates results from a burden survey of 14,932 taxpayers conducted in 2000 and 2001, and estimates taxpayer burden based on

those survey results. Summary level results using this methodology are presented in the table below.

#### **Taxpayer Burden Estimates**

Time spent and out-of-pocket costs are estimated separately. Out-of-pocket costs include any expenses incurred by taxpayers to prepare and submit their tax returns. Examples of out-of-pocket costs include tax return preparation and submission fees, postage, tax preparation software costs, photocopying costs, and phone calls (if not toll-free).

Both time and cost burdens are national averages and do not necessarily reflect a "typical" case. For instance, the average time burden for all taxpayers filing a 1040, 1040A, or 1040EZ is estimated at 26.4 hours, with an average cost of \$209 per return. This average includes all associated forms and schedules, across all preparation methods and all taxpayer activities. Taxpayers filing Form 1040 have an expected average burden of about 33 hours, and taxpayers filing Form 1040A and Form 1040EZ are expected to average about 11 hours. However, within each of these estimates, there is significant variation in taxpayer activity. Similarly, tax preparation fees vary extensively depending on the taxpayer's tax situation and issues, the type of professional preparer, and the geographic area.

The data shown are the best forward-looking estimates available as of November 4, 2008, for income tax returns filed for 2008. The estimates are subject to change as new data become available. The estimates include burden for activities up through and including filing a return but do not include burden associated with post-filing activities. However, operational IRS data indicate that electronically prepared and e-filed returns have fewer arithmetic errors, implying a lower associated post-filing burden.

#### **Taxpayer Burden Model**

The table below shows burden estimates by form type and type of taxpayer. Time burden is further broken out by taxpayer activity. The largest component of time burden for all taxpayers is recordkeeping, as opposed to form completion and submission. In addition, the time burden associated with form completion and submission activities is closely tied to preparation method (self-prepared without software, self-prepared with software, and prepared by paid preparer).

**Proposed PRA Submission to OMB**

*Title:* U.S. Individual Income Tax Return.

*OMB Number:* 1545-0074.

*Form Numbers:* Form 1040 and Schedules A, B, C, C-EZ, D, D-1, E, EIC, F, H, J, R, and SE; Form 1040A and Schedules 1, 2 and 3; Form 1040EZ; and all attachments to these forms (see the Appendix to this notice).

*Abstract:* These forms are used by individuals to report their income tax liability. The data is used to verify that the items reported on the forms are correct, and also for general statistics use.

*Current Actions:* Changes are being made to some of the forms. The projected number of responses for FY 09 is lower than FY 08. This is because most of the one-time Economic Stimulus filing volume is no longer in the underlying return volume. The return volume in FY 09 reflects the normal demographic growth to the expected filing population. These changes have resulted in an overall decrease of 86,792,628 total hours in

taxpayer burden previously approved by OMB.

*Type of Review:* Revision of currently approved collections.

*Affected Public:* Individuals or households.

*Estimated Number of Respondents:* 140,600,000.

*Total Estimated Time:* 3.703 billion hours (3,703,000,000 hours).

*Estimated Time per Respondent:* 26.4 hours.

*Total Estimated Out-of-Pocket Costs:* \$29.33 billion (\$29,336,000,000).

*Estimated Out-of-Pocket Cost per Respondent:* \$209.00

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB Control Number.

Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

**Request for Comments**

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.
