**Title: 49 CFR Part 611 Major Capital Investment Projects (OMB Number: 2132-0561)**

*Background:* On August 10, 2005, the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was enacted. Sections 3011(d)(5) and 3011(e)(6) of SAFETEA-LU require FTA to issue regulations on the manner in which candidate projects for major capital investment grants for new fixed guideway systems, extensions to existing fixed guideway systems, or significant corridor based bus investments ("New Starts," "Small Starts," respectively) will be evaluated and rated for purposes of the FTA Capital Investment Grants program for New and Small Starts under 49 U.S.C. Section 5309. An Advanced Notice of Proposed Rulemaking (ANPRM) for this regulation was issued on January 30, 2006, (71 FR 22841). A Notice of Proposed Rulemaking (NPRM) was issued on August 3, 2007, (72 FR 43328). The NPRM was withdrawn on February 17, 2009, due to an intervening statutory change resulting from the passage of the SAFETEA-LU Technical Corrections Act in June 2008.

FTA has a longstanding requirement to evaluate proposed projects against a prescribed set of statutory criteria. The Surface Transportation and Uniform Relocation Assistance Act of 1987 (STURAA) established in law a set of criteria that proposed projects had to meet in order to be eligible for federal funding. The requirement for summary project ratings has been in place since 1998. Thus, the requirements for project evaluation and data collection for New Starts projects are not new, nor have they changed extensively since their inception. One addition included in SAFETEA-LU is the Small Starts program. The Small Starts program enables projects with a lesser total capital cost and smaller requested share of New Starts funds to progress through

a simplified and streamlined project evaluation and data collection process. In general, though, the information used by FTA for New and Small Starts project evaluation and rating purposes should arise as a part of the normal planning process.

FTA has been collecting project evaluation information from project sponsors under the existing OMB approval for this program (OMB No. 2132-0561). However, due to modifications in project evaluation criteria for the New Starts program and the addition of the Small Starts program, it became apparent that some information required might be beyond the scope of ordinary planning activities.

SAFETEA-LU creates additional requirements for before-and-after data collection for purposes of Government Performance and Results Act reporting as a condition of obtaining a Full Funding Grant Agreement (FFGA) or a Project Construction Grant Agreement (PCGA).

*Respondents:* State and local government.

*Estimated Annual Burden on Respondents:* Approximately 217.7 hours for each of the 178 respondents.

*Estimated Total Annual Burden:* 38,760 hours.

*Frequency:* Annual.

Issued: April 21, 2009.
