

by OMB (OMB Control Number 1076–0021). All information is collected from each electric power consumer. Users are not required to maintain records but may do so for business purposes. The information they submit is for the purpose of obtaining or retaining a benefit, namely electric power. While we do require personal information for the purpose of adhering to the controlling laws and regulations, we protect the information under the Privacy Act. Annual reporting and record keeping burden for this collection of information is estimated to average 30 minutes for each response for 3,000 respondents, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Thus, the total annual reporting and record keeping burden for this collection is estimated to be 1,500 hours.

Respondents: BIA Electric Power Consumers—individuals and businesses.

Number of Respondents: 3,000 per year.

Estimated Time per Response: 1/2 hour.

Frequency of Response: The information is collected once, unless the respondent requests new electrical service elsewhere or if it has been disconnected for failure to pay their electric bill.

Total Annual Burden to Respondents: 1,500 hours.

B. Water Requests

OMB Control Number: 1076–0141.

Type of review: Renewal.

Title: Water Request (25 CFR 171).

Brief Description of Collection: In order for irrigators to receive water deliveries, information is needed by the BIA to operate and maintain its irrigation projects and fulfill reporting requirements. Section 171.140 of 25 CFR part 171, [Irrigation] Operation and Maintenance, specifies the information collection requirement. Water users must apply for water delivery. The information to be collected includes: name; water delivery location; time and date of requested water delivery; duration of water delivery; rate of water flow; number of acres irrigated; crop statistics; and other operational information identified in the local administrative manuals. Collection of this information is currently authorized under an approval by OMB (OMB Control Number 1076–0141). The respondents mainly request water be turned on or turned off. Users are not required to maintain records but may do

so for business purposes. The information they submit is for the purpose of obtaining or retaining a benefit, namely irrigation water. While we do require personal information for the purpose of adhering to the controlling laws and regulations, we protect the information under the Privacy Act. All information is collected from each respondent with a response required each time irrigation water is provided (we estimate 2 times each year). We estimate that we service 8,165 users who submit information about 2 times each year for a total of 16,330 responses a year. We estimate that it takes respondents approximately 1 hour per response, resulting in a total annual hourly burden of 16,330.

Respondents: Water users of the BIA irrigation project, which can include individuals and businesses.

Number of Respondents: 8,165.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion throughout the irrigation season, approximately 2 times per year.

Total Annual Burden to Respondents: 16,330 hours.

Dated: May 13, 2009.

Alvin Foster,

Deputy Chief Information Officer—Indian Affairs.

BILLING CODE P

DEPARTMENT OF THE INTERIOR**U.S. Geological Survey****Privacy Act of 1974; Amendments to Existing Systems of Records**

AGENCY: U.S. Geological Survey.

ACTION: Proposed amendment of existing Privacy Act systems of records.

SUMMARY: In accordance with the Privacy Act of 1974 (5 U.S.C. 552a), the U.S. Geological Survey of the Department of the Interior is issuing public notice of its intent to amend 14 existing Privacy Act system of records notices to add a new routine use to authorize the disclosure of records to individuals involved in responding to a breach of Federal data.

DATES: Comments must be received by June 29, 2009.

ADDRESSES: Any persons interested in commenting on these proposed amendments may do so by submitting comments in writing to the U.S. Geological Survey Privacy Act Officer, Deborah Kimball, U.S. Geological Survey, U.S. Department of the Interior, MS-807, 12201 Sunrise Valley Drive, Reston, VA 20192, or by e-mail to dkimball@usgs.gov.

FOR FURTHER INFORMATION CONTACT: U.S. Geological Survey Privacy Act Officer, Deborah Kimball, U.S. Geological Survey, U.S. Department of the Interior, MS-807, 12201 Sunrise Valley Drive, Reston, VA 20192, or by e-mail to dkimball@usgs.gov.

SUPPLEMENTARY INFORMATION: On May 22, 2007, in a memorandum for the heads of Executive Departments and Agencies entitled "Safeguarding Against and Responding to the Breach of Personally Identifiable Information," the Office of Management and Budget directed agencies to develop and publish a routine use for disclosure of information in connection with response and remedial efforts in the

event of a data breach. This routine use will serve to protect the interest of the individuals, whose information is at issue by allowing agencies to take appropriate steps to facilitate a timely and effective response to the breach, thereby improving its ability to prevent, minimize or remedy any harm resulting from a compromise of data maintained in its systems of records. Accordingly, the U.S. Geological Survey of the Department of the Interior is proposing to add a new routine use to authorize disclosure to appropriate agencies, entities, and persons, of information maintained in the following systems in the event of a data breach. These amendments will be effective as proposed at the end of the comment period unless comments are received which would require a contrary determination. The U.S. Geological Survey will publish a revised notice if changes are made based upon a review of comments received.

Dated: May 12, 2009.

Deborah Kimball,

U.S. Geological Survey Privacy Act Officer.
