During any administrative review covering all or part of a period falling between the first and second or third and fourth anniversary of the publication of an antidumping duty order under 19 CFR 351.211 or a determination under 19 CFR 351.218(f)(4) to continue an order or suspended investigation (after sunset review), the Secretary, if requested by a domestic interested party within 30 days of the date of publication of the notice of initiation of the review, will determine, consistent with *FAG Italia v. United States*, 291 F.3d 806 (Fed. Cir. 2002), as appropriate, whether antidumping duties have been absorbed by an exporter or producer subject to the review if the subject merchandise is sold in the United States through an importer that is affiliated with such exporter or producer. The request must include the name(s) of the exporter or producer for which the inquiry is requested.

Interested parties must submit applications for disclosure under administrative protective orders in accordance with 19 CFR 351.305.

These initiations and this notice are in accordance with section 751(a) of the Tariff Act of 1930, as amended (19

³ If one of the above-named companies does not qualify for a separate rate, all other exporters of Pure Magnesium from the People's Republic of China ("PRC") who have not qualified for a separate rate are deemed to be covered by this review as part of the single PRC entity of which the named exporters are a part.

U.S.C. 1675(a)), and 19 CFR 351.221(c)(1)(i).

Dated: June 17, 2009.

John M. Andersen,

*Acting Deputy Assistant Secretary for
Antidumping and Countervailing Duty
Operations.*

Endangered Species; File No. 14394

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Douglas Peterson, PhD, University of Georgia, Warnell School of Forest Resources, Athens, GA 30602, has applied in due form for a permit to take shortnose sturgeon (*Acipenser brevirostrum*) for purposes of scientific research.

DATES: Written, telefaxed, or e-mail comments must be received on or before July 24, 2009.

ADDRESSES: The application and related documents are available for review by selecting “Records Open for Public Comment” from the Features box on the

Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov/index.cfm>, and then selecting File No. 14394 from the list of available applications. These documents are also available for review upon written request or by appointment. The application and related documents are available for review upon written request or by appointment in the following offices:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521; and Southeast Region, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701; phone (727) 824-5312; fax (727) 824-5309.

Written comments or requests for a public hearing on this application should be mailed to the Chief, Permits, Conservation and Education Division, F/PR1, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular request would be appropriate.

Comments may also be submitted by facsimile at (301) 427-2521, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period.

Comments may also be submitted by e-mail. The mailbox address for providing e-mail comments is

NMFS.Pr1Comments@noaa.gov. Include in the subject line of the e-mail comment the following document identifier: File No. 14394.

FOR FURTHER INFORMATION CONTACT: Malcolm Mohead or Kate Swails, (301) 713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Dr. Douglas Peterson is seeking a five-year scientific research permit to conduct a study in the Altamaha River, Georgia, assessing the distribution, abundance and movements of adult and sub-adult of shortnose sturgeon. The permit would authorize non-lethal sampling methods on up to 500 shortnose sturgeon annually, but not to exceed 1,500 over the life of the permit. Research activities would include gill netting, measuring (length, weight, photos), genetic/fin-ray tissue sampling, PIT and sonic tagging, anesthesia, laparoscopy, and gastric lavage. To document spawning in the river, up to 20 eggs or larvae would be lethally collected with artificial substrates annually. Additionally, one incidence of unintentional mortality or serious injury is proposed over the life of the permit.

Dated: June 18, 2009

P. Michael Payne,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

RIN 0648-XP64

Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to Coastal Commercial Fireworks Displays at Monterey Bay National Marine Sanctuary, CA

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

AGENCY: National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of issuance of a letter of authorization.

SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA) and implementing regulations, notification is hereby given that a one-year Letter of Authorization (LOA) has been issued to the Monterey Bay National Marine Sanctuary (MBNMS) to incidentally take, by Level B harassment only, California sea lions (*Zalophus californianus*) and Pacific harbor seals (*Phoca vitulina*) incidental to professional fireworks displays within the MBNMS.

DATES: This authorization is effective from July 4, 2009, through July 3, 2010.

ADDRESSES: The LOA and supporting documentation are available for review in the Permits, Conservation, and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910, by contacting one of the individuals listed here (**FOR FURTHER INFORMATION CONTACT**), or online at: <http://www.nmfs.noaa.gov/pr/permits/incidental.htm#applications>. Documents cited in this notice may be viewed, by appointment, during regular business hours, at the aforementioned address and at the Southwest Region, NMFS, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA 90802.

FOR FURTHER INFORMATION CONTACT: Jeannine Cody, Office of Protected Resources, NMFS, (301) 713-2289, or Monica DeAngelis, Southwest Regional Office, NMFS, (562) 980-4023.

SUPPLEMENTARY INFORMATION:

Background

Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 *et seq.*) directs the Secretary of Commerce (Secretary) upon request, to allow, during periods of not more than five consecutive years each, the incidental, but not intentional, taking of marine mammals by United States citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region, if certain findings are made and regulations are issued.

The Secretary shall grant the authorization for incidental taking if NMFS finds, after notice and opportunity for public comment, that the total of such taking during each five-year (or less) period concerned, will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses, and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth.

NMFS has defined "negligible impact" in 50 Code of Federal

Regulations 216.103 as "...an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival."

In addition, NMFS must prescribe regulations that include permissible methods of taking and other means effecting the least practicable adverse impact on the species and its habitat and on the availability of the species for subsistence uses, paying particular attention to rookeries, mating grounds, and areas of similar significance. The regulations must include requirements for monitoring and reporting of such taking.

Regulations governing the taking of California sea lions and Pacific harbor seals, by Level B harassment, incidental to commercial fireworks displays within the Monterey Bay National Marine Sanctuary (MBNMS) became effective on July 4, 2006, and remain in effect until July 3, 2011. For detailed information on this action, please refer to the original **Federal Register** notice (71 FR 40928, July 19, 2006). These regulations include mitigation, monitoring, and reporting requirements for the incidental taking of marine mammals during the fireworks displays within the Sanctuary boundaries. This will be the third LOA issued pursuant to these regulations.

Summary of Request

On February 11, 2008, NMFS received a request for a LOA pursuant to the aforementioned regulations that would authorize, for a period not to exceed 1 year, take of marine mammals incidental to fireworks displays at the MBNMS. Justification for conducting fireworks displays within the MBNMS can be found in the proposed rule (71 FR 25544, May 1, 2006) and the final rule (71 FR 40928, July 19, 2006).

Summary of Activity and Monitoring Under the Current LOA

In compliance with the 2008 LOA, the MBNMS submitted an annual report on the fireworks displays at MBNMS. A summary of that report follows.

For each display, observers conducted pre-event surveys to document abundance and distribution of local marine mammal populations within the fireworks areas. Following the fireworks display, observers conducted post-event monitoring to record the presence of injured or dead marine mammals, and other wildlife.

Pre-event monitoring of the Cambria Independence Day Fireworks on July 3 found no marine mammals present at the site and a post-event census on July
