

POLICY JUSTIFICATION**Korea – Upgrade of F-16 Block 32 Aircraft**

The Republic of Korea has requested a possible sale to support the upgrade of 35 F-16 Block 32 aircraft to allow employment of Joint Direct Attack Munitions, Advanced Medium Range Air-to-Air Missiles, Improved Data Modem, and Secure Voice capabilities, test and support equipment, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support. The estimated cost is \$250 million.

The Republic of Korea is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability, which will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives. No foreign policy or military developments affect this proposed sale.

The Republic of Korea needs the material and services proposed to adequately operate the F-16 weapon system to its fullest and utmost capability in both a deterrent role and a coalition role with United States Forces Korea and the Combined Forces Command.

The prime contractor will be Lockheed Martin Aeronautics Company in Fort Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require temporary travel for U.S. Government or contractor representatives to the Republic of Korea for in-country support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Dated: May 29, 2009.
Patricia L. Toppings,
OSD Federal Register Liaison Officer,
Department of Defense.

POLICY JUSTIFICATION**Korea – SM-2 BLOCK IIIA STANDARD Missiles**

The Republic of Korea has requested a possible sale of 46 SM-2 Block IIIA Tactical STANDARD missiles, 35 SM-2 Block IIIB Tactical STANDARD missiles, 3 SM-2 Block IIIB Telemetry Missiles, 84 SM-2 missile containers, missile modifications, test and support equipment, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support. The estimated cost is \$170 million.

The proposed sale will enhance the Republic of Korea's defensive capabilities and increase interoperability with U.S. and multi-national forces supporting coalition operations. The country already has these missiles in its inventory and will have no difficulty absorbing these items.

The prime contractor will be Raytheon Electronic Systems Company in Tucson, Arizona. At this time, there are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require temporary travel for U.S. Government or contractor representatives to the Republic of Korea for in-country training. Training will be a recurring requirement during the life of the missile system.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 09-22**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vii****(vii) Sensitivity of Technology:**

1. The possible sale of SM-2 Block IIIA/IIIB STANDARD Missiles consists of Guidance Unit, Dual Thrust Rocket Motor, Steering Control Unit, and Telemeter with omni-directional antenna. The proposed sale will result in the transfer of sensitive technology and information as well as classified and unclassified defense equipment and technical data. The hardware and installed software is classified Secret. Training documentation is classified Confidential. Shipboard operational/tactical employment is generally Confidential, but includes some Secret data. The all-up round STANDARD missiles are classified Confidential. Certain operating frequencies and performance characteristics are classified Secret.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

Dated: May 29, 2009.

Patricia L. Toppings,
