SUPPLEMENTARY INFORMATION:

Background: In a separate notice of proposed rulemaking, EPA proposed a regulation to implement changes to the Renewable Fuel Standard program as mandated by the Clean Air Act (as amended by Sections 201, 202, and 210 of the Energy Independence and Security Act of 2007). The revised statutory requirements specify the volumes of cellulosic biofuel, biomass-based diesel, advanced biofuel, and total renewable fuel that must be used in transportation fuel each year, with the volumes increasing over time. The rule proposed regulations designed to ensure that refiners, blenders, and importers of gasoline and diesel would use enough renewable fuel each year so that the four volume requirements of the Energy Independence and Security Act would be met with renewable fuels that also meet the required lifecycle greenhouse gas emissions performance standards. The RFS2 proposed rule describes the standards that would apply to these parties, the lifecycle greenhouse gas modeling, and the renewable fuels that would qualify for compliance. The proposed regulations also make a number of changes to the current Renewable Fuel Standard program

while retaining many elements of the compliance and trading system already in place.

Extension of Comment Period: EPA received requests for an extension of the RFS2 public comment period from various parties ranging from 60 to 120 days. EPA also received a request to not extend the comment period, and to continue with the schedule as proposed. After considering all of these comments, EPA has determined that an extension of the comment period would provide the public adequate time to provide meaningful comment on the proposed rule. However, this need must be balanced against our desire to finalize and implement the new standards in a timely manner. EPA believes that an additional 60 days is an appropriate amount of time to balance these needs. Accordingly, the public comment period for the RFS2 proposed rulemaking is extended until September 25, 2009. EPA does not anticipate any further extension of the comment period at this time.

Dated: June 30, 2009.

Gina McCarthy,

Assistant Administrator, Office of Air and Radiation.
