

effective seven days file separate transmittals; (3) requirement that carriers identify transmittals filed pursuant to the streamlined provisions of the 1996 Act; (4) requirement that price cap LECs file their Tariff Review Plans prior to filing their annual access tariffs; (5) filing petitions and replies electronically (reporting requirement); (6) filing petitions and replies electronically (third party disclosure requirement); (7) recordkeeping requirement (standard protective order); and (8) reporting requirement (standard protective order).

The information collected via electronic filing will facilitate access to tariff and associated documents by the public, especially by interested persons or parties who do not have ready access to the Commission's public reference center, and state and federal regulators. Electronic access to carrier tariffs should also facilitate the compilation of aggregate data for industry analysis purposes without imposing new reporting requirements on carriers. Carriers desiring tariffs proposing rate decreases to be effective in seven days must file a separate transmittal. This requirement will ensure that a tariff filing proposing a rate decrease is given the shortest notice period possible under the 1996 Act. The Commission also adopted the requirement that carriers identify transmittals filed pursuant to the streamlining provisions of the 1996 Act. All of the requirements help to ensure that local exchange carriers comply with their obligations under the Communications Act and that the Commission is able to ensure compliance within the streamlined timeframes established in the 1996 Act.
