SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The Acquisition Management Systems and Data Requirements Control List (AMSDL) is a list of data requirements used in Department of Defense contracts. Information collection requests are contained in DoD contract actions for supplies, services, hardware, and software. This information is collected and used by DoD and its component Military Departments and Agencies to support the design, test, manufacture, training, operation, maintenance, and logistical support of procured items, including weapons systems. The collection of such data is essential to accomplishing the assigned mission of the Department of Defense. Failure to collect this information would have a detrimental effect on the DoD acquisition programs and the National Security.

Information used to prepare the burden hours is contained in the ASSIST Online database.

Title; Associated Form; and OMB Number: Department of Defense Active Duty/Reserve Forces Dental Examination; DD Form 2813; OMB Number 0720-0222.

Needs and Uses: The information collection requirement is necessary to obtain and record the dental health status of members of the Armed Forces. This form is the means for civilian dentists to record the results of their

findings and provide the information to the member's military organization. The military organizations are required by Department of Defense policy to track the dental status of its members.

Affected Public: Business or other profit; Not-for-profit institutions.

Annual Burden Hours: 42,500.

Number of Respondents: 850,000.

Responses per Respondent: 1.

Average Burden per Response: 3 minutes.

Frequency: Annually.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Respondents are medical professionals who provide dental services to the general public. Members of the Armed Forces of the United States are the recipients of the dental examination. The Armed Forces Reserve component members must maintain their dental health at a predetermined level so problems do not occur when they are deployed to a military operation. Reserve component members usually receive their dental care from civilian dentists; therefore it would be civilian dentists who would complete the form. Following a routine dental examination, the dentist would review the categories listed on the form and circle the number corresponding to the condition that best describes the dental health of the patient. If dental problems can be identified, they are indicated on the form. Once the form is complete and the dentist signs it, the members take the form back to the organization to which they belong. The information on the form is logged into a database. The form is kept in the health record until no longer needed and then it is destroyed.
