

disposal, including the option for beneficial re-use of dredged material, will be evaluated for each dredging project. The proposed ODMDS will be monitored periodically to ensure that the site operates as expected. This proposed site designation has been prepared pursuant to Section 102 of the Marine Protection, Research and Sanctuaries Act (MPRSA). The evaluation is based on EPA's general and specific criteria. Field studies, modeling of sediment dispersion following dredged material disposal under various scenarios, constrained areas, and economic considerations are included in the evaluation. The draft EIS contains an evaluation of potential impacts associated with the two "Action" alternatives, and the No-Action alternative. There are two alternative locations for a permanent ODMDS; either the North or Northwest alternative. The proposed North ODMDS is approximately 13.7 nautical miles offshore of Outer Apra Harbor, and in water depths ranging from 6,560 and 7,710 feet. The proposed Northwest ODMDS is approximately 8.9 nautical miles offshore of Outer Apra Harbor, and in water depths ranging from 8,200 and 9,055 feet. There would be a maximum annual disposal limit of 1,000,000 cubic yards of dredged material for whichever site is chosen. Either location has been determined to be environmentally suitable given depth and stability; however the Northwest alternative is the preferred site. The proposed ODMDS will be managed by the USEPA and U.S. Army Corps of Engineers (USACE) Honolulu District.

Comments were received during the scoping comment period and a public scoping meeting was held at the Weston Resort Guam on December 6, 2007. Revisions were made to the field sampling and data collection program (conducted in 2008) and to the analysis presented in the draft EIS to address these comments.

**Public Meeting:** EPA is requesting written comments on this draft EIS from federal, state, and local governments, industry, non-governmental organizations, and the general public. A public meeting is scheduled at the following location and date—August 20, 2009 6–8 p.m., at the Weston Resort Guam, 105 Gun Beach Road, Tumon, Guam. This meeting will consist of two parts—the first being an informational session, and the second a public hearing where the public may comment on the DEIS. ## Synopsis

CTS is a form of TRS that permits persons with a hearing disability to simultaneously listen to what the other party is saying and read captions of what the other party is saying on the same device. In 2003, the Commission recognized CTS as a form of TRS eligible for compensation from the Interstate TRS Fund, but did not make it a mandatory service. *See Telecommunications Relay Service and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, CC Docket No. 98-67, Declaratory Ruling, FCC 03-190, published at 68 FR 55898, September 29, 2003.

In 2005, a petition was filed by various consumer groups requesting that the Commission initiate a rulemaking to make CTS a mandatory form of TRS. The Bureau released a Public Notice seeking comment on the petition. *See Petition for Rulemaking Filed Concerning Mandating Captioned Telephone Relay Service and Authorizing Internet Protocol (IP) Captioned Telephone Relay Service*, CG Docket No. 03-123, Public Notice, DA 05-2961, published at 70 FR 71849, November 30, 2005.

On June 10, 2009, some of the parties to the original petition filed a supplement reiterating their request for rulemaking to make CTS a mandatory service. *See Telecommunications Relay Service and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, CG Docket 03-123, Supplement to Petition to Mandate Captioned Telephone Relay Service.
