Take notice that on August 7, 2009, SourceGas Distribution LLC and SourceGas Energy Services Company (complainants) filed a formal complaint against Kinder Morgan Interstate Gas Transmission LLC (KIMIGT), pursuant to sections 4 and 5 of the Natural Gas Act, 15 USC 717c(b) and 717d(a) (2000) and pursuant to 18 CFR 385.206 and 395.212 (2009). Motiva Enterprises LLC; Notice of Filing of Notice of Self-Certification of Qualifying Status of a Cogeneration Facility

August 18, 2009.

Take notice that on August 10, 2009, Motiva Enterprises LLC (Applicant), located at P.O. Box 2463, Houston, TX 77252-2463, filed with the Federal Energy Regulatory Commission a notice of self-certification of a facility as a qualifying cogeneration facility pursuant to 18 CFR 292.207(a) of the Commission's regulations.

The applicant is constructing a cogeneration facility (Facility) at the site of its existing Port Arthur Refinery, located at 2555 Savannah Avenue, Port Arthur, TX 77640, to provide steam and electric energy primarily to meet the requirements of its Port Arthur Refinery—Crude Expansion Project and in part to meet the requirements of its existing Port Arthur Refinery. The Facility consist of four gas turbine

generators, with four heat recovery generators, with a combined net electric capacity of 156 MW. The primary fuel for the Facility will be natural gas.

Entergy Texas Inc. is the electric utility to which the Facility will interconnect. Generation is used primarily to meet on-site demand of the Port Arthur Refinery—Crude Expansion Project; however, any surplus could be sold in the available power markets.

A notice of self-certification does not institute a proceeding regarding qualifying facility status; a notice of self-certification provides notice that the entity making the filing has determined the Facility meets the applicable criteria to be a qualifying facility. Any person seeking to challenge such qualifying facility status may do so by filing a motion pursuant to 18 CFR 292.207(d)(iii).

Abstract: EPA uses voluntary surveys to learn how satisfied EPA customers are with our services and how we can improve services, products and processes. EPA surveys individuals who use services or could have. During the next three years, EPA plans up to 56 surveys, and will use results to target/measure service delivery improvements. By seeking renewal of the generic clearance for customer surveys, EPA will have the flexibility to gather the views of our customers to better determine the extent to which our services, products and processes satisfy their needs or need to be improved. The generic clearance will speed the review and approval of customer surveys that solicit opinions from EPA customers on a voluntary basis, and do not involve "fact-finding" for the purposes of regulatory development or enforcement. An Agency may not conduct or sponsor, and a person is not required to respond
