AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FHWA invites public comment regarding our intention to request the Office of Management and Budget (OMB) to approve a renewed information collection. The information we collect is provided by each State Department of Transportation (State) in its right-of-way operations manuals. The right-of-way manuals contain detailed descriptions of procedures the State will follow to show compliance with Federal regulations found in 23 CFR Part 710 and 49 CFR Part 24. 23 CFR 710.201(c) sets out the requirement for the right-of-way operations manual. Specifically, each manual shall describe functions and procedures for all phases of the real estate program, including appraisal and appraisal review, negotiation and eminent domain, property management, and relocation assistance. The State shall update the manual periodically to reflect changes in operations and submit the updated manual for approval by the FHWA. The Paperwork Reduction Act of 1995 required the FHWA to publish notice for this information collection in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

Title: State Right-of-Way Operations Manuals.

OMB Control Number: 2125-0586.

Background: It is the responsibility of each State Department of Transportation (State) to acquire, manage and dispose of real property in compliance with the legal requirements of State and Federal laws and regulations. Part of providing assurance of compliance is to describe in a right-of-way procedural (operations) manual the organization, policies and procedures of the State to such an extent that these guide State employees, local acquiring agencies, and contractors who acquire and manage real property that is used for a federally funded transportation project. Procedural manuals assure the FHWA that the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act (Uniform Act) will be met. The State responsibility to prepare and maintain an up-to-date right-of-way procedural manual is set out in 23 CFR 710.201(c). The regulation allows States flexibility in determining how to meet the manual requirement. This flexibility allows States to prepare manuals in the format of their choosing, to the level of detail necessitated by State complexities. Each State decides how it will provide service to individuals and businesses affected by Federal or federally-assisted projects, while at the same time reducing the burden of government regulation. States are required to update manuals to reflect changes in Federal requirements for programs administered under Title 23 U.S.C. The State manuals may be

submitted to FHWA electronically or made available by posting on the State Web site.

Respondents: State Departments of Transportation (52, including the District of Columbia and Puerto Rico).

Frequency: Once initially, then States update their operations manuals for review.

Estimated Average Burden per Response: 75 hours per respondent.

Estimated Total Annual Burden

Hours: 75 hours for each of the 52 State Departments of Transportation. The total is 3,900 burden hours annually.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA oversight of the right-of-way program; (2) the accuracy of the estimated burden; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: September 29, 2009.

Judith Kane,

Acting Chief, Management Programs and Analysis Division.

[Docket No. MARAD-2009 0090]

Requested Administrative Waiver of the Coastwise Trade Laws

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Invitation for public comments on a requested administrative waiver of the Coastwise Trade Laws for the vessel FINNESSA.

SUMMARY: As authorized by 46 U.S.C. 12121, the Secretary of Transportation, as represented by the Maritime Administration (MARAD), is authorized to grant waivers of the U.S.-build requirement of the coastwise laws under certain circumstances. A request for such a waiver has been received by MARAD. The vessel, and a brief description of the proposed service, is listed below. The complete application is given in DOT docket MARAD-2009-0090 at <http://www.regulations.gov>. Interested parties may comment on the effect this action may have on U.S. vessel builders or businesses in the U.S. that use U.S.-flag vessels. If MARAD determines, in accordance with 46 U.S.C. 12121 and MARAD's regulations at 46 CFR part 388 (68 FR 23084; April 30, 2003), that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, a waiver will not be granted. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD's regulations at 46 CFR part 388.

DATES: Submit comments on or before November 4, 2009.
