

GMPCS transceivers consistent with treatment of similar terrestrial wireless devices, such as cellular phones.

The Commission is requiring that applicants obtain authorization for the equipment by submitting an application and exhibits, including test data. If the Commission did not obtain such information, it would not be able to ascertain whether the equipment meets the FCC's technical standards for operation in the United States. Furthermore, the data is required to ensure that the equipment will not cause catastrophic interference to other telecommunications services that may impact the health and safety of American citizens.

OMB Control Number: 3060-1066.

Title: Renewal of Application for Satellite Space and Earth Station Authorization.

Form No.: FCC Form 312-R.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents/Responses: 6 respondents; 6 responses.

Estimated Time Per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The Commission has authority for this information collection under Sections 4(i), 7(a), 303(c), 303(f), 303(g), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 157(a), 303(c), 303(f), 303(g), and 303(r).

Total Annual Burden: 12 hours.

Annual Cost Burden: \$2,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality.

Needs and Uses: This collection will be submitted to the Office of Management and Budget (OMB) as an extension (no change in requirements) after this 60-day comment period has ended in order to obtain the full three year OMB clearance.

The Commission is requesting continued OMB approval of the application titled, "Renewal of Application for Satellite Space and Earth Station Authorization (FCC Form 312-R). The FCC Form 312-R is used by earth station licensees to request renewals of their applications. Currently, this application is available in MyIBFS. However, the Commission plans to develop a new Consolidated Licensing System (CLS) that will replace MyIBFS. Therefore, the FCC Form 312-R will be made available to the public in CLS instead of MyIBFS.

This collection is used by the Commission staff in carrying out its duties concerning satellite communications as required by Sections 301, 308, 309 and 310 of the Communications Act, 47 U.S.C. 301, 308, 309, 310. This collection is also used by the Commission staff in carrying out its duties under the World Trade Organization (WTO) Basic Telecom Agreement.

The information collection requirements accounted for in this collection are necessary to determine the technical and legal qualifications of applicants or licensees to operate a station, transfer or assign a license, and to determine whether the authorization is in the public interest, convenience and necessity. Without such information, the Commission could not determine whether to permit respondents to provide telecommunication services in the U.S. Therefore, the Commission would be unable to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended, and the obligations imposed on parties to the WTO Basic Telecom Agreement.

OMB Control Number: 3060-1108.

Title: Consummation of Assignments and Transfers of Control of Authorization.

Form No.: Not Applicable.

Type of Review: Extension of a currently approved information collection.

Respondents: Business or other for-profit.

Number of Respondents/Responses: 589 respondents; 589 responses.

Estimated Time Per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The Commission has authority for this information collection pursuant to 47 U.S.C. 154(i) and 47 CFR Sections 1.767, 25.119, 63.24(e)(4), 73.3540 and 73.3541.

Total Annual Burden: 589 hours.

Annual Cost Burden: \$118,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality.

Needs and Uses: This collection will be submitted to the Office of Management and Budget (OMB) as an extension (no change in requirements) after this 60-day comment period has ended in order to obtain the full three year OMB clearance.

The purpose of this information collection is to request continued OMB

approval of a module in the International Bureau Filing System ("MyIBFS") to facilitate the consummation of Assignments and Transfers of Control of Authorization. A consummation is a party's notification to the Commission that a transaction (assignment or transfer of control of authorization) has been completed. A consummation is applicable to all international telecommunications and satellite services, including International High Frequency (IHF), Section 214 Applications (ITC), Satellite Space Stations (SAT), Submarine Cable Landing Licenses (SCL) and Satellite Earth Station (SES) licenses.

Without this collection of information, the Commission would not have critical information such as a change in a controlling interest in the ownership of the licensee. The Commission would not be able to carry out its duties under the Communications Act and to determine the qualifications of applicants to provide international telecommunications service, including applicants that are affiliated with foreign entities, and to determine whether and under what conditions the authorizations are in the public interest, convenience, and necessity. Furthermore, without this collection of information, the Commission would not be able to maintain effective oversight of U.S. providers of international telecommunications services that are affiliated with, or involved in certain co-marketing or similar arrangements with, foreign entities that have market power.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collections Being Reviewed by the Federal Communications Commission, Comments Requested

October 9, 2009.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, 44 U.S.C. 3501-3520. An agency may not conduct or sponsor a collection of information unless it

displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Persons wishing to comments on this information collection should submit comments on December 15, 2009. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget (OMB), via fax at (202) 395-5167, or via the Internet at Nicholas_A.Fraser@omb.eop.gov and to Cathy Williams, Federal Communications Commission (FCC), 445 12th Street, SW, Room 1-C823, Washington, DC 20554. Estimated Time Per Response: 10 hours.

Frequency of Response: One time and on occasion reporting requirements; Recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. The Commission has authority for this information collection under Sections 4(i), 7(a), 303(c), 303(f), 303(g), and

303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 157(a), 303(c), 303(f), 303(g), and 303(r).

Total Annual Burden: 38,720 hours.

Annual Cost Burden: \$9,874,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality.

Needs and Uses: This collection will be submitted to the Office of Management and Budget (OMB) as an extension (no change in requirements) after this 60-day comment period has ended in order to obtain the full three year OMB clearance.

The Federal Communications Commission ("Commission") is requesting continued OMB approval of the application, "Qualification Questions" (FCC Form 312-EZ) used by applicants for C-band and Ku-band earth stations (non-common carrier applicants) that are eligible for the "auto-grant" procedure. Under the "autogrant process," the International Bureau automatically grants "routine" earth station applications proposing to use the C-band or Ku-band. By "routine," we mean consistent with all the technical requirements in part 25 applicable to earth stations.

This collection is used by the Commission staff in carrying out its duties concerning satellite communications as required by Sections 301, 308, 309 and 310 of the Communications Act, 47 U.S.C. 301, 308, 309, 310. This collection is also used by the Commission staff in carrying out its duties under the World Trade Organization (WTO) Basic Telecom Agreement.

The information collection requirements accounted for in this collection are necessary to determine the technical and legal qualifications of applicants or licensees to operate a station, transfer or assign a license, and to determine whether the authorization is in the public interest, convenience and necessity. Without such information, the Commission could not determine whether to permit respondents to provide telecommunication services in the U.S. Therefore, the Commission would be unable to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended, and the obligations imposed on parties to the WTO Basic Telecom Agreement.

Title: Service Rules and Policies for the Broadcasting Satellite Service (BSS).
Form No.: Not Applicable.

Type of Review: Revision of a currently approved information collection.

Respondents: Business or other for profit.

Number of Respondents/Responses: 4 respondents; 4 responses.

Estimated Time Per Response: 10 hours.

Frequency of Response: On occasion, quarterly and annual reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. The Commission has authority for this information collection under Sections 4(i), 7(a), 303(c), 303(f), 303(g), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 157(a), 303(c), 303(f), 303(g), and 303(r).

Total Annual Burden: 240 hours.

Annual Cost Burden: \$12,452,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality.

Needs and Uses: The purpose of this information collection is to request continued

OMB approval of the processing and service rules for the 17/24 GHz Broadcasting Satellite Service ("17/24 GHz BSS"). This collection will be submitted to the Office of Management and Budget (OMB) as a revision after this 60-day comment period has ended in order to obtain the full three-year OMB clearance. The Commission is revising this information collection to reflect more accurate burden estimates.

This collection is used by the Commission staff in carrying out its duties concerning broadcasting satellite service as required by Sections 301, 308, 309 and 310 of the Communications Act, 47 U.S.C. 301, 308, 309, 310. This collection is also used by the Commission staff in carrying out its duties under the World Trade Organization (WTO) Basic Telecom Agreement.

The information collection requirements accounted for in this collection are necessary to determine the technical, legal and financial qualifications of applicants or licensees to operate a station, transfer or assign a license, and to determine whether the authorization is in the public interest, convenience and necessity. Without such information, the Commission could not determine whether to permit respondents to provide telecommunication services in the U.S. Therefore, the Commission would be unable to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as

amended, and the obligations imposed on parties to the WTO Basic Telecom Agreement.

Type of Review: Extension of a currently approved collection.

Title: Sections 76.613 and 76.802, Home Wiring Provisions.

Form Number: Not Applicable.

Respondents: Individuals or households; Business or other for-profit entities.

Number of Respondents and Responses: 22,000 respondents; 253,010 responses.

Estimated Time per Response: 5 minutes – 2 hours.

Frequency of Response: Recordkeeping requirement; on occasion reporting requirement; annual reporting requirement; third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The Commission has authority for this information collection under Sections 1, 4, 224, 251, 303, 601, 623, 624 and 632 of the Communications Act of 1934, as amended.

Total Annual Burden: 36,114 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: 47 CFR 76.613(d) requires that when Multichannel Video Programming Distributors (MVPDs) cause harmful signal interference MVPDs will be required by the Commission's engineer in charge (EIC) to prepare and submit a report regarding the cause(s) of the interference, corrective measures planned or taken, and the efficacy of the remedial measures.

47 CFR 76.802(b) states during the initial telephone call in which a subscriber contacts a cable operator to voluntarily terminate cable service, the cable operator—if it owns and intends to remove the home wiring—must inform the subscriber: (1) That the cable operator owns the home wiring; (2) That the cable operator intends to remove the home wiring; (3) That the subscriber has the right to purchase the home wiring; and (4) What the per-foot replacement cost and total charge for the wiring would be (the total charge may be based on either the actual length of cable wiring and the actual number of passive splitters on the customer's side of the demarcation point, or a reasonable approximation thereof; in either event, the information necessary for calculating the total charge must be

available for use during the initial phone call).

47 CFR 76.804 (a)(1) states where an MVPD owns the home run wiring in an Multiple Dwelling Unit Building (MDU) and does not (or will not at the conclusion of the notice period) have a legally enforceable right to remain on the premises against the wishes of the MDU owner, the MDU owner may give the MVPD a minimum of 90 days' written notice that its access to the entire building will be terminated to invoke the procedures in this section. The MVPD will then have 30 days to notify the MDU owner in writing of its election for all the home run wiring inside the MDU building: to remove the wiring and restore the MDU building consistent with state law within 30 days of the end of the 90-day notice period or within 30 days of actual service termination, whichever occurs first; to abandon and not disable the wiring at the end of the 90-day notice period; or to sell the wiring to the MDU building owner. If the incumbent provider elects to remove or abandon the wiring, and it intends to terminate service before the end of the 90-day notice period, the incumbent provider shall notify the MDU owner at the time of this election of the date on which it intends to terminate service. If the incumbent provider elects to remove its wiring and restore the building consistent with state law, it must do so within 30 days of the end of the 90-day notice period or within 30 days of actual service termination, whichever occurs first. For purposes of abandonment, passive devices, including splitters, shall be considered part of the home run wiring. The incumbent provider that has elected to abandon its home run wiring may remove its amplifiers or other active devices used in the wiring if an equivalent replacement can easily be reattached. In addition, an incumbent provider removing any active elements shall comply with the notice requirements and other rules regarding the removal of home run wiring. If the MDU owner declines to purchase the home run wiring, the MDU owner may permit an alternative provider that has been authorized to provide service to the MDU to negotiate to purchase the wiring.

47 CFR 76.804 (a)(2) states if the incumbent provider elects to sell the home run wiring under paragraph (a)(1) of this section, the incumbent and the MDU owner or alternative provider shall have 30 days from the date of election to negotiate a price. If the parties are unable to agree on a price within that 30-day time period, the incumbent must elect: to abandon

without disabling the wiring; to remove the wiring and restore the MDU consistent with state law; or to submit the price determination to binding arbitration by an independent expert. If the incumbent provider chooses to abandon or remove its wiring, it must notify the MDU owner at the time of this election if and when it intends to terminate service before the end of the 90-day notice period. If the incumbent service provider elects to abandon its wiring at this point, the abandonment shall become effective at the end of the 90-day notice period or upon service termination, whichever occurs first. If the incumbent elects at this point to remove its wiring and restore the building consistent with state law, it must do so within 30 days of the end of the 90-day notice period or within 30 days of actual service termination, whichever occurs first.

47 CFR 76.804 (a) (3) states if the incumbent elects to submit to binding arbitration, the parties shall have seven days to agree on an independent expert or to each designate an expert who will pick a third expert within an additional seven days. The independent expert chosen will be required to assess a reasonable price for the home run wiring by the end of the 90-day notice period. If the incumbent elects to submit the matter to binding arbitration and the MDU owner (or the alternative provider) refuses to participate, the incumbent shall have no further obligations under the Commission's home run wiring disposition procedures. If the incumbent fails to comply with any of the deadlines established herein, it shall be deemed to have elected to abandon its home run wiring at the end of the 90-day notice period.

47 CFR 76.804 (a) (4) states the MDU owner shall be permitted to exercise the rights of individual subscribers under this subsection for purposes of the disposition of the cable home wiring under §76.802. When an MDU owner notifies an incumbent provider under this section that the incumbent provider's access to the entire building will be terminated and that the MDU owner seeks to use the home run wiring for another service, the incumbent provider shall, in accordance with our current home wiring rules: offer to sell to the MDU owner any home wiring within the individual dwelling units that the incumbent provider owns and intends to remove; and provide the MDU owner with the total per-foot replacement cost of such home wiring. This information must be provided to the MDU owner within 30 days of the initial notice that the incumbent's access to the building will be

terminated. If the MDU owner declines to purchase the cable home wiring, the MDU owner may allow the alternative provider to purchase the home wiring upon service termination under the terms and conditions of \$76,802. If the MDU owner or the alternative provider elects to purchase the home wiring under these rules, it must so notify the incumbent MVPD provider not later than 30 days before the incumbent's termination of access to the building will become effective. If the MDU owner and the alternative provider fail to elect to purchase the home wiring, the incumbent provider must then remove the cable home wiring, under normal operating conditions, within 30 days of actual service termination, or make no subsequent attempt to remove it or to restrict its use.

In the Telecommunications Act of 1996, Congress directed that every broadcaster be given a second channel for digital operations. At the end of the transition, broadcasters' analog channels will be returned to the government. Congress set a target date of December 31, 2006 for the end of the transition, although that date can be extended if 85% of viewers in a particular market do not have access to the digital signals. In addition, at the end of the transition the broadcast spectrum will contract from channels 2–69 to channels 2–51. This 108 MHz of spectrum (channels 52–69) can then be used by advanced wireless services and public safety authorities. There are several key building blocks to a successful transition. First, content – consumers must perceive something significantly different than what they have in analog. Second, distribution – the content must be delivered to consumers in a simple and convenient way. Third, equipment – equipment must be capable, affordable and consumer-friendly. And fourth, education – consumers must be educated about what digital television is, and what it can do for them. These information requests are designed to gather data in these key areas.
