

demand for visitor access with user experience and resource protection; (3) threats to water quality from off-Refuge mining; (4) Refuge enhancement of its relationship with local communities; (5) monitoring and addressing the effects of climate change; (6) the State of Alaska's wood bison project; and (7) ensuring resource protection while providing for subsistence and other public uses.

Alternative A (the no-action alternative—a NEPA requirement) described what would happen with a continuation of current management activities and served as a baseline for comparison of other alternative. Under Alternative A, management of the Refuge would continue to follow the current course of action as described in the 1987 Innoko CCP and Record of Decision as modified by subsequent program-specific plans. Refuge lands would remain in their present management categories.

Under our selected alternative, Alternative B, Refuge lands would continue to be managed in their present management categories. New regional policies and guidelines for national wildlife refuges in Alaska would be incorporated. The vision, goals, and objectives proposed in the draft CCP would be adopted to guide Refuge management.

Comments on the Draft CCP

Public comments on the draft CCP and EA were solicited from May 14, 2008 through July 22, 2008. A public meeting was held in McGrath but no one attended it. Comments were received from the State of Alaska, three conservation organizations, one big-game guide outfitter, and two individuals.

One individual requested a ban on all hunting, trapping, logging, new roads and prescribed burning in the Refuge. The other individual recommended that the Refuge Headquarters be moved to Galena. Support for the State of Alaska's wood bison project and opposition to future subsistence hunting of wood bison was expressed. The outfitter-guide expressed concern about management of air taxis and management of hunting within the Refuge. Two conservation organizations requested the CCP include Wilderness and Wild and Scenic River recommendations. One organization provided comments on motorized and mechanized activities, climate change, and supported disclosure of information about State of Alaska right-of-way claims. One organization provided a number of specific comments on access and fisheries enhancement in wilderness. The State of Alaska provided technical and editorial

comments on wood bison, fisheries management, goals and objectives, predator management, management policies and guidelines, and draft compatibility determinations.

No substantive revisions to Alternative B, the proposed action, were made as a result of the public comments on the Draft Revised Innoko CCP. A number of technical corrections were made in response to comments and many of the editorial suggestions provided by the State of Alaska were adopted.

Environmental Assessment for the West Potomac Park Levee Project Notice of Availability

AGENCY: Department of the Interior, National Park Service.

ACTION: Notice of availability.

SUMMARY: Pursuant to the Council of Environmental Quality regulations and National Park Service policy, this notice announces the availability of an Environmental Assessment (EA) for the improvements to the existing West Potomac Park Levee System which extends from 23rd Street, NW., to the grounds of the Washington Monument. The goal of this project is to improve the reliability of the existing levee in order to meet the current post-Hurricane Katrina standards for flood protection as required by the U.S. Army Corps of Engineers (USACE) and the Federal Emergency Management Agency (FEMA). The existing levee protects much of the monumental core and large portions of downtown Washington, DC. **DATES:** There will be a 30-day public review period for comment on this document. Comments on the EA should be received no later than March 2, 2009.

ADDRESSES: Comments should be submitted either via the National Park Service Planning, Environment, and Public Comment (PEPC) Web site (<http://parkplanning.nps.gov/projectHome.cfm?parkID=427&projectId=22260>) or in writing to Mr. Doug Jacobs, Deputy Associate Regional Director for Lands, Resources and Planning, National Capital Region, National Park Service, 1100 Ohio Drive, SW., Washington, DC 20242. Copies of the EA can be downloaded from PEPC and will also be available for review at the National Capital Region Headquarters, 1100 Ohio Drive, SW., Washington, DC 20242.
