[Docket No. C-6964]

RIN 3140-ZA00

Representation Election Procedure

AGENCY: National Mediation Board.

ACTION: Proposed rule; notice of meeting.

SUMMARY: The National Mediation Board (NMB or Board) extends an invitation to interested parties to attend an open meeting with the Board and its staff on December 7, 2009. The Board meeting will be held from 9 a.m. until 4 p.m. The meeting will be held in the Margaret A. Browning Hearing Room (Room 11000), National Labor Relations Board, 1099 14th Street, NW., Washington, DC 20570. During the public meeting, the NMB invites interested persons to share their views on the proposed rule changes regarding representation election procedures.

DATES: The meeting will be held on Monday, December 7, 2009 from 9 a.m. to 4 p.m. A second day of meetings may be scheduled for Tuesday, December 8, 2009 if necessary. Due to time and seating considerations, individuals desiring to attend the meeting, or to make a presentation before the Board, must notify the NMB staff, no later than 4 p.m. on Friday, November 20, 2009.

ADDRESSES: The public meeting will be held in the Margaret A. Browning Hearing Room (Room 11000), National Labor Relations Board, 1099 14th Street, NW., Washington, DC 20570. Requests to attend the meeting must be addressed to Mary Johnson, General Counsel, National Mediation Board, 1301 K Street, NW., Suite 250-East, Washington, DC 20005. Written requests may also be made electronically to legal@nmb.gov. All communications must include Docket No. C-6964.

FOR FURTHER INFORMATION CONTACT: Mary Johnson, General Counsel, National Mediation Board, 202-692-5050, info@nmb.gov.

SUPPLEMENTARY INFORMATION: The National Mediation Board will hold an open public meeting on Monday, December 7, 2009, from 9 a.m. until 4 p.m. The purpose of the meeting will be to solicit views of interested persons concerning the proposed rule changes in representation election procedures.

On Tuesday, November 3, 2009, the NMB proposed a Notice of Proposed Rulemaking (NPRM) (74 FR 56750), proposing to amend its Railway Labor Act rules to provide that, in representation disputes, a majority of valid ballots cast will determine the craft or class representative. These rule changes are proposed to be codified at 29 CFR parts 1202 and 1206. In addition to the comment procedure outlined in the NPRM, the NMB is providing another opportunity for interested persons to provide their views to the Board on this important matter.

Individuals desiring to attend the meeting must notify the NMB staff, in writing, at the above listed physical or e-mail address by the deadline posted. If the individual desires to make a presentation to the Board at the meeting, he or she is required to submit a brief outline of the presentation when making the request. In addition, a full written statement must be submitted no later than 4 p.m. on Friday, November 20, 2009. In lieu of making an oral presentation, individuals may submit a written statement for the record.

To attend the meeting, all potential attendees must include in their request: (1) Their full name and (2) organizational affiliation (if any). Attendees are reminded to bring a photo identification card with them to the public meeting in order to gain admittance to the building. Due to the time and potential space limitations in the meeting room, the NMB will notify individuals of their attendance and/or speaking status (*i.e.*, preliminary time for their presentation) prior to the meeting. Time allocation for oral presentations will depend upon the number of individuals who desire to make presentations to the Board. Individuals should be prepared to summarize their written statements at the meeting.

Agenda: The meeting will be limited to issues related to the NMB's proposal regarding proposed rule changes in representation election procedures appearing in the **Federal Register** on

November 3, 2009 at 74 FR 56750-56754. A copy of the NPRM may also be obtained from the NMB's Web site at: <http://www.nmb.gov/representation/proposed-rep-rulemaking.html>.

Dated: November 3, 2009.

Background and Purpose

U.S. Coast Guard Maritime Safety and Security Team (MSST) San Francisco, U.S. Coast Guard Air Station San Francisco, and various Coast Guard smallboat stations will be conducting use of force training runs in the waters of San Pablo Bay. The exercises are designed to train and test Coast Guard personnel in the decision-making processes necessary to safely and effectively employ use of force from a smallboat or helicopter during Homeland Security incidents. The training will generally involve the use of several Coast Guard smallboats and/or a helicopter to intercept fast-moving, evasive target vessels on the water. The smallboat and helicopter crews will fire weapons at the target vessels using blank ammunition and catch bags to ensure that cartridges and other debris do not fall to the water. This safety zone is issued to establish a restricted area in San Pablo Bay around the training site.

Discussion of Proposed Rule

The Coast Guard is establishing a permanent safety zone in the navigable waters of San Pablo Bay. During training exercises, the safety zone applies to the navigable waters from the surface to the seafloor, defined by enclosing an area within lines connected by the following points: 38°05′11″ N, 122°22′10″ W; 38°03′44″ N, 122°20′12″ W; 38°00′41″ N, 122°25′28″ W; and 38°01′45″ N, 122°26′38″ W (NAD 83).

The effect of the permanent safety zone will be to restrict navigation in the vicinity of the exercise. Except for

persons or vessels authorized by the Coast Guard Patrol Commander, no person or vessel may enter or remain in the restricted area. These regulations are intended to keep the public a safe distance away from the participating smallboats and/or helicopters and to ensure the safety of transiting vessels.

Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

The proposed rule is not expected to have a significant effect on the economy. This safety zone would be activated and enforced for a small area where vessel traffic is low and any unrelated traffic is unlikely. Vessel traffic can pass safely around the safety zone. Before the activation of the zone, the Coast Guard would issue maritime advisories widely available to users of the affected waterways. Because of the potential dangers posed by these exercises, the safety zone is necessary to provide for the safety of other vessels transiting the area.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. The factual basis for this certification is as follows:

(1) This proposed rule would affect owners and operators of pleasure craft engaged in recreational activities and sightseeing intending to transit San Pablo Bay;

(2) This safety zone would not have a significant economic impact on a

substantial number of small entities for the following reasons. This safety zone would be activated and enforced for a small area where vessel traffic is low and any unrelated traffic is unlikely. Vessel traffic can pass safely around the safety zone. Before the activation of the zone, the Coast Guard would issue maritime advisories widely available to users of the affected waterways.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact Lieutenant Simone Mausz, U.S. Coast Guard Sector San Francisco; telephone 415–399–7443, e-mail simone.mausz@uscg.mil. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year.

Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use

voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 0023.1 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. A preliminary environmental analysis checklist supporting this determination is available in the docket where indicated under **ADDRESSES**. This rule is categorically excluded from certain documentation requirements under figure 2–1, paragraph (34)(g), of the Instruction because the rule involves establishment of a safety zone. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

Proposed Significant New Use Rules on Certain Chemical Substances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing significant new use rules (SNURs) under section 5(a)(2) of the Toxic Substances Control Act (TSCA) for two chemical substances which were the subject of premanufacture notices. The two substances are identified generically as multi-walled carbon nanotubes (P–08–177) and single-walled carbon nanotubes (P–08–328). These substances are subject to TSCA section 5(e) consent orders issued by EPA. The consent orders require protective measures to limit exposures or otherwise mitigate the potential unreasonable risk. The proposed SNURs on these substances are based on and consistent with the provisions in the underlying consent orders. The proposed SNURs designate as a “significant new use” the absence of the protective measures required in the corresponding consent orders. This action would require persons who intend to manufacture, import, or process either of these two substances for an activity that is designated as a significant new use by this proposed rule to notify EPA at least 90 days before commencing that activity. The required notification would provide EPA with the opportunity to evaluate the intended use and, if necessary, to prohibit or limit that activity before it occurs.
