FOR FURTHER INFORMATION CONTACT: Mr. David Dell, Regional HCP Coordinator, (See **ADDRESSES**), telephone: 404/679-7313; or Mr. Darren LeBlanc, Field Office Project Manager, at the Alabama Field Office (See **ADDRESSES**), telephone: 251/441-5859.

SUPPLEMENTARY INFORMATION: We announce the availability of the proposed HCPs, 32 accompanying ITP applications, and an EA, which analyzes the take of the Alabama beach mouse incidental to the Projects. This group of similar applications has been collected into what we refer to as "ABM Batch V" for efficiency in their review. The applicants request 50-year ITPs under section 10(a)(1)(B) of the Endangered Species Act of 1973 (Act; 16 U.S.C. 1531 *et seq.*), as amended.

We specifically request information and opinions from the public via this notice on our proposed Federal action, including identification of any other aspects of the human environment not already identified in the EA pursuant to NEPA regulations (40 CFR 1506.6). Further, we specifically solicit information regarding the adequacy of the HCPs per 50 CFR parts 13 and 17.

An assessment of the likely environmental impacts associated with the implementation of the proposed projects, the EA considers the environmental consequences of a no-action alternative, no-minimization, and the proposed action. The proposed action alternative is issuance of 32 ITPs and implementation of the HCPs as submitted by the Applicants. The HCP covers activities associated with the construction and maintenance of residences on 32 discrete lots totaling 16.9 acres on the Fort Morgan Peninsula. Under the preferred alternative, project development would result in the overall loss of 3.58 acres of ABM habitat. Avoidance, minimization and mitigation measures include a reduced design footprint, on-site land management to maintain use of the project sites by Alabama beach mice, and funding off-site habitat acquisition and management.

Next Steps

We will evaluate these ITP applications, including the HCPs and

any comments we receive, to determine whether these applications meet the requirements of section 10(a)(1)(B) of the Act. We will also evaluate whether issuance of section 10(a)(1)(B) ITPs complies with section 7 of the Endangered Species Act by conducting an intra-Service section 7 consultation. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue the 32 ITPs. If we determine that the requirements are met, we will issue the ITPs for the incidental take of the Alabama beach mouse.

Authority

We provide this notice under section 10 of the Act (16 U.S.C. 1531 *et seq.*) and NEPA regulations (40 CFR 1506.6).
