What could happen as a result of this review?

If we find that there is new information concerning any of the 23 species listed in Table 1 indicating a change in classification may be warranted, we may propose a new rule that could do one of the following: (a) Reclassify the species from endangered to threatened; (b) reclassify the species from threatened to endangered; or (c) remove the species from the List. If we determine that a change in classification is not warranted, then these species will remain on the List under their current status.
