SUPPLEMENTARY INFORMATION:

Background

On May 14, 2008, we published in the *Federal Register* a notice of proposed rulemaking that proposed to revise the boundaries of three anchorage grounds adjacent to Ellis and Liberty Islands in Upper New York Bay (73 FR 27775). This notice of proposed rulemaking was entitled “Anchorage Regulations; Port of New York” and is available at docket number USCG–2008–0027. The reason we proposed to revise the boundaries of those three anchorages was to coordinate with a separate rulemaking proposing the expansion of two security zones adjacent to Ellis and Liberty Islands. The notice of proposed rulemaking proposing expansion of the security zones was published in the *Federal Register* on May 6, 2008, (73 FR 24889), and is available at docket number USCG–2007–0074.

Due to comments received regarding the proposed expansion of two security zones, we will not expand these two security zones; the decision not to expand them was recently published as part of the final rule concerning “Safety and Security Zones: New York Marine Inspection Zone and Captain of the Port Zone,” docket number USCG–2007–0074. This decision removes the need to revise the size of the three adjacent anchorage grounds.

Withdrawal

Because we will not expand the security zones discussed above, there is no need to revise the boundaries of the three anchorage grounds adjacent to Ellis and Liberty Islands in Upper New York Bay. Therefore, we are withdrawing our proposal to revise those anchorage grounds, which was published on May 14, 2008, in the *Federal Register* (73 FR 27775).

Authority

We issue this notice of withdrawal under the authority of 33 U.S.C. 471, 1221 through 1236, 2030, 2035 and

2071; 33 CFR 1.05–1; and Department of Homeland Security Delegation No. 0170.1.

Background and Purpose

On August 20, 2008, The Coast Guard published an NPRM entitled "Passenger Weight and Inspected Vessel Stability Requirements" (73 FR 49244). During the NPRM's original comment period, which ended November 18, 2008, members of the public requested that the Coast Guard add to the docket a study cited in support of certain stability findings that resulted in proposed changes to 46 CFR 171 in the NPRM.

The 12-page study, entitled the "Pontoon Vessel Passenger Crowding Stability Criteria Study," was added to the docket on October 30, 2008 (document number USCG-2007-0030-0139.1). Following the addition of the study, members of the public stated that they did not have sufficient time to review and comment on this study before the close of the comment period. On December 8, 2008, the Coast Guard reopened the comment period for 60 days to afford the public additional time to comment (73 FR 74426).

During the reopened comment period the Coast Guard became aware that an appendix to the study, that had not been previously released, would assist the public in understanding the Pontoon Vessel Passenger Crowding Stability Criteria Study. We added this information, entitled "Pontoon Vessel Passenger Crowding Stability Criteria Study, Appendix 1" to the docket on February 09, 2009 (document number USCG-2007-0030-0204.1). In order to ensure the public has sufficient time to utilize the information in the appendix we will reopen the comment period, which closed February 6, 2009, for 30 additional days. The comment period

will close on March 20, 2009.

Additionally, you are reminded that you may comment on any aspect of the rulemaking, including on any comments placed in the docket. We may change the proposed rules in response to the comments received.

Dated: February 10, 2009.

J.G. Lantz,

Director of Commercial Regulations and Standards, U.S. Coast Guard.
