

FOR FURTHER INFORMATION CONTACT: Julie Neer, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; telephone: (843) 571-4366.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop, (2) Assessment Process utilizing webinars and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting Panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office and Southeast Fisheries Science Center. Participants include data collectors and

database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

**SEDAR 22 Data Workshop Schedule:
March 15–19, 2010; SEDAR 22 Data Workshop**

March 15, 2010: 1 p.m. - 8 p.m.; March 16–18, 2010: 8 a.m. - 8 p.m.; March 19, 2010: 8 a.m. - 12 p.m.

An assessment data set and associated documentation will be developed during the Data Workshop. Participants will evaluate all available data and select appropriate sources for providing information on life history characteristics, catch statistics, discard estimates, length and age composition, and fishery dependent and fishery independent measures of stock abundance.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities.

Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 business days prior to each workshop.

Dated: January 22, 2010.

William D. Chappell,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF DEFENSE

Department of the Navy

Notice of Public Hearings for the Draft Environmental Impact Statement for the Silver Strand Training Complex, San Diego, CA

AGENCY: Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act (NEPA) and the Council on Environmental Quality Regulations for implementing the procedural provisions

of NEPA (Title 40 Code of Federal Regulations Parts 1500-1508), the Department of the Navy (Navy) has prepared and filed with the U.S. Environmental Protection Agency a Draft Environmental Impact Statement (DEIS) for public release on January 22, 2010. The National Marine Fisheries Service (NMFS) is a cooperating agency for the EIS.

The DEIS evaluates the potential environmental impacts associated with training activities within the Navy's Silver Strand Training Complex (SSTC) and southern nearshore areas of the Naval Air Station North Island (NASNI). The DEIS addresses ongoing and proposed military training activities, introduction of new platforms and equipment for training, and increased access and availability to existing beach and inland training areas. The proposed action serves to achieve and maintain Fleet readiness using the SSTC to support and conduct current, emerging, and future training activities. A Notice of Intent for this EIS was published in the **Federal Register** on August 6, 2001 (66 FR 41009).

The Navy will conduct two public hearings to receive oral and written comments on the DEIS. An open house session will precede the scheduled public hearing where Navy representatives will be available to clarify information related to the DEIS. Federal, State, and local agencies, elected officials, and other interested individuals and organizations are invited to be present or represented at the public hearings. This notice announces the dates and locations of the public hearings.

Dates and Addresses: Two public hearings will be held in San Diego County, CA to receive oral and written comments on the DEIS. All meetings will start with an open house session from 4 p.m. to 6 p.m., followed by a presentation and formal public comment period from 6 p.m. to 7:30 p.m. Public hearings will be held on the following dates and at the following locations:

1. Tuesday, February 22, 2010, at the Imperial Beach City Hall Community Room, 825 Imperial Beach Boulevard, Imperial Beach, CA; and

2. Wednesday, February 23, 2010, at the Coronado Community Center, 1845 Strand Way, Coronado, CA.

FOR FURTHER INFORMATION CONTACT:

Naval Facilities Engineering Command Southwest, Attention: Mr. Kent Randall, SSTC EIS Project Manager, 1220 Pacific Highway, Building 1, 5th Floor, San Diego, CA 92132; or <http://www.silverstrandtrainingcomplexeis.com>.

SUPPLEMENTARY INFORMATION: The SSTC has been used by the Navy for training over 60 years. It is located on, and adjacent to, the Silver Strand, a narrow, sandy isthmus separating the San Diego Bay from the Pacific Ocean. SSTC is divided into two non-contiguous areas: SSTC-North (SSTC-N) and SSTC-South (SSTC-S). SSTC-N includes land areas on the northern-half of the Silver Strand peninsula, as well as adjacent nearshore waters of the Pacific Ocean and the San Diego Bay. SSTC-N is composed of 10 oceanside beach and boat training lanes, ocean anchorage areas, bayside water training areas, and bayside beaches. SSTC-S includes land on the southern-end of the Silver Strand
