

(NHPA), as amended (16 U.S.C. 470 *et seq.*), this notice also serves as an instrument for integration of the Section 106 Consultation into the NEPA process, as required under 40 CFR 1505.25(a); as well as 36 CFR 800.2(a)(4), 800.3(b) and 800.8. An MOA for the Preferred Alternative will be executed in consultation with the New York and New Jersey State Historic Preservation Offices, and will be completed prior to the anticipated record of decision (ROD) at the culmination of the NEPA process.

In accordance with the applicable regulations of the General Conformity Rule (pursuant to the Clean Air Act; 42 U.S.C. 7401 *et seq.* as amended) and given the findings that the estimated annual emission rates of two pollutants (*i.e.*, CO and NO_x) are predicted to exceed the General Conformity applicability thresholds during the GBR Project's construction period, this notice also serves as the instrument to fulfill the 30-day public review requirements for the General Conformity Determination by the USCG.

Absent new information coming to its attention prior to the conclusion of the 30-day period, the Coast Guard intends to complete its ROD and pursue the preferred alternative at that time. The ROD will identify the environmentally-preferred alternative for the proposed action and be announced in the **Federal Register**.

II. Background

Eligible Public Assistance applicants conducting active research programs, and that have incurred damages to their facility as a result of a declared major disaster, may be eligible for Public Assistance grant funding for replacement or repair of facilities and the equipment and/or furnishings contained within. The cost of performing research itself is not eligible for Public Assistance grant funding. Because research is not identified as an eligible PNP service under 44 CFR 206.221(e), an active research program must support an eligible function such as an educational or medical function in order for the facilities, equipment and/or furnishings to be eligible. The draft updated policy proposes to include insurance considerations for the applicant that may affect Public Assistance funding.

FEMA seeks comment on the proposed policy, which is available online at <http://www.regulations.gov> in

docket ID FEMA–2010–0048. Based on the comments received, FEMA may make appropriate revisions to the proposed policy. Although FEMA will consider any comments received in the drafting of the final policy, FEMA will not provide a response to comments document. When or if FEMA issues a final policy, FEMA will publish a notice of availability in the **Federal Register** and make the final policy available at <http://www.regulations.gov>.
