

Because the demand for credit assistance now exceeds budgetary resources, it is no longer feasible for DOT to maintain, as it had since 2002, an open process whereby the TIFIA JPO accepted applications on a "first come, first serve" basis as defined by the optimal schedule of the applicant. Instead, the DOT is returning to periodic fixed-date solicitations that will establish a competitive group of projects to be evaluated against the TIFIA program objectives.

The eight TIFIA selection criteria are described in statute at 23 U.S.C. 602(b) and assigned relative weights via regulation at 49 CFR 80.15. The criteria were restated in the December 3, 2009, **Federal Register** notice at 74 FR 63497 with, where appropriate, clarifying language that indicated how the DOT will interpret them. In general, these clarifications indicated the DOT's desire to give priority to projects that have a significant impact on desirable long-term outcomes for the Nation, a metropolitan area, or a region.

As detailed in the December 3, 2009, **Federal Register** notice, beginning in fiscal year 2008, the total credit requests from TIFIA applicants exceeded available resources. In response, the Department suspended consideration of new applications and reserved anticipated fiscal years 2009 and 2010 appropriations with the expectation that existing applicants would contribute to the Government's cost of providing credit assistance. Several potential applicants, however, rather than waiting to compete for scarce TIFIA funds in fiscal year 2010 and beyond, have indicated an interest paying a fee to offset the entire budgetary cost to the Federal Government. As a result, the DOT announced that it is exploring the potential of implementing a pilot program under which the DOT would accept applications for projects where the borrowers are willing and able to pay a fee to offset the entire subsidy cost of TIFIA credit assistance. The purpose of this pilot program would be to extend credit, consistent with policy objectives, to qualified projects that DOT otherwise cannot provide TIFIA assistance merely due to insufficient budgetary resources.

Finally, with the pending discussions regarding reauthorization of the TIFIA credit program, the DOT is soliciting stakeholder reauthorization proposals at this listening session regarding potential changes to improve the TIFIA program.

II. Purpose of the Listening Session

At the listening session, the DOT will receive the public's feedback on the following four issues.

Because demand for the TIFIA program now exceeds budgetary resources, the DOT recently announced the suspension of the program's open application process and the return to periodic fixed-date solicitations that will establish a competitive group of projects to be evaluated against program objectives.

Additionally, the DOT provided new language clarifying its use of the TIFIA selection criteria, incorporating explicit consideration of these policy objectives: livability, economic competitiveness, safety, sustainability, and state of good repair.

In light of constrained resources vis-à-vis demand for TIFIA assistance, the DOT requested comments regarding the potential implementation of a pilot program to accept, from qualified borrowers, an upfront fee payment to offset the entire subsidy cost of TIFIA credit assistance.

Finally, the DOT will utilize this listening session to seek feedback from stakeholders regarding potential changes to strengthen and/or expand the TIFIA program.

The DOT is committed to providing all interested parties an opportunity to discuss perspectives on pertinent issues that could affect the TIFIA program. While the NOFA published on December 3, 2009, sought public comment on specific issues related to TIFIA, the DOT recognizes that it would be useful to obtain additional information on a broader range of TIFIA-related subjects. Notwithstanding this listening session, however, individuals are encouraged to submit official comments to the docket. Participants are discouraged from reading prepared statements.

III. Meeting Information

The meeting will be held from 10:30 a.m. to 4:30 p.m., *e.t.*, on Friday, February 12, 2010, in the West Atrium of the U.S. Department of Transportation located at 1200 New Jersey Avenue, SE., Washington, DC 20590. Because access to the DOT building is controlled, all visitors must sign in with the security office located at the west building entrance, present valid picture identification, be escorted, and wear a visitor's badge at all times while in the building.

Due to security procedures and space limitations, individuals who wish to attend the listening session must pre-register online by no later than 5 p.m., *e.t.*, on Monday, February 8, 2010, to gain admittance to the meeting. Interested participants must register through the following link <http://www.housmanandassociates.com/usdot/>.

Anyone having difficulties registering online should contact Oscar Bedolla at TIFIAcredit@dot.gov, (202)366-0638, for assistance with the online registration. All participants must be registered online. The first 200 participants to register will be granted entrance to the listening session. No formal presentations by participants will be permitted.

Notwithstanding this session, individuals who wish to submit formal written comments to the docket are encouraged to follow the instructions provided in the original NOFA issued on December 3, 2009, at 74 FR 63497 prior to the closing date of March 1, 2010.

Railroad Cost Recovery Procedures—Productivity Adjustment

AGENCY: Surface Transportation Board, DOT.

ACTION: Proposed Railroad Cost Recovery Procedures Productivity Adjustment.

SUMMARY: In a decision served on February 1, 2010, we proposed to adopt 1.010 (1.0% per year) as the measure of average change in railroad productivity for the 2004–2008 (5-year) averaging period. This is a decline of 0.5 of a percentage point from the current measure of 1.5% that was developed for the 2003–2007 period. The Board's February 1, 2010 decision in this proceeding stated that comments may be filed addressing any perceived data and computational errors in our calculation. It also stated that, if there were no further action taken by the Board, the proposed productivity adjustment would become effective on March 1, 2010.

DATES: The productivity adjustment is effective March 1, 2010. Comments are due by February 22, 2010.

ADDRESSES: Send comments (an original and 10 copies) referring to STB Ex Parte No. 290 (Sub-No. 4) to: Surface Transportation Board, 395 E Street, SW., Washington, DC 20423–0001.
