

marine mammal stock in the wild by causing disruption of natural behavioral patterns, including, but not limited to, migration, surfacing, nursing, breeding, feeding, or sheltering, to a point where such behavioral patterns are abandoned or significantly altered [Level B Harassment].

Summary of Request

In March 2009, NMFS received an application from the Navy requesting authorization to take individuals of 20 species of marine mammals (15 cetaceans and 5 pinnipeds) incidental to upcoming training activities to be conducted in the GOA TMAA, which is a polygon roughly the shape of a 300 nm by 150 nm rectangle oriented northwest to southeast in the long direction, over the course of 5 years. NMFS subsequently requested additional information, which was provided in the form of a revised application in November, 2009. These training activities are classified as military readiness activities. The Navy states that these training activities may expose some of the marine mammals present in the area to sound from various active tactical sonar sources or to pressure from underwater detonations. The Navy requests authorization to take individuals of 20 species of cetaceans and pinnipeds by Level B Harassment. Further, the Navy requests authorization to take 3 individual beaked whales (of any of the following species: Baird's beaked whale, Cuvier's beaked whale, Stejneger's beaked whale) annually by serious injury or mortality.

Specified Activities

In the application submitted to NMFS, the Navy requests authorization to take marine mammals incidental to conducting training activities utilizing mid- and high frequency active sonar sources and explosive detonations. These sonar and explosive sources will be utilized during Anti-submarine Warfare (ASW) Tracking and Torpedo Exercises, Extended Echo Ranging, Improved Extended Echo Ranging, and Advanced Extended Echo Ranging (EER/IEER/AEER) events, Missile Exercises, Gunnery Exercises, Bombing Exercises, and Sinking Exercises. Table 1–7 in the application lists the activity types, the equipment and platforms involved, and the duration and potential locations of the activities.

The training activities will take place during the summer months, in the form of one or two major exercises or focused activity periods. These exercises or activity periods would each last up to 21 days and consist of multiple component training activities. Unlike Navy Training activities in other areas, the GOA TMAA is not a Range Complex

and as such, there are no other or ongoing small scale Navy Training activities conducted outside these activity periods.

Information Solicited

Interested persons may submit information, suggestions, and comments concerning the Navy's request (see **ADDRESSES**). All information, suggestions, and comments related to the Navy's GOA TMAA request and NMFS' potential development and implementation of regulations governing the incidental taking of marine mammals by the Navy's GOA TMAA activities will be considered by NMFS in developing, if appropriate, the most effective regulations governing the issuance of letters of authorization.

SUPPLEMENTARY INFORMATION:

I. Background

CFTC Regulation 30.10 allows persons located and doing business outside the U.S., who are subject to a comparable regulatory framework in the country in which they are located, to seek an exemption from the application of certain of the Part 30 regulations. Regulation 30.10 expressly states that, upon petition, the Commission may exempt any person from any requirement of the Part 30 regulations. If the Commission grants an exemption, persons located and doing business outside the U.S. may solicit or accept orders directly from U.S. customers for foreign futures or options transactions without registering under the Act as FCMs.

A petition for exemption pursuant to Regulation 30.10 is typically filed on behalf of persons located and doing business outside the U.S. that seek access to U.S. customers by (1) a governmental agency responsible for implementing and enforcing the foreign regulatory program, or (2) a self-regulatory organization (SRO) of which such persons are members. A petitioner who seeks an exemption pursuant to Regulation 30.10, based on substituted compliance with a non-U.S. regulatory framework that is comparable to the Act and rules thereunder, must set forth with particularity the comparable regulations applicable in the jurisdiction in which that person is located. In essence, a petitioner under Regulation 30.10 must present, with particularity, the factual basis for a finding of comparability and the reasons why the policies and purposes of the Commission's regulatory program are met, notwithstanding any differences of degree or kind in the petitioner's regulatory program.

Appendix A to Part 30 (Appendix A) articulates standards to be used by staff in assessing whether a foreign

regulatory system is comparable.¹ These standards involve inquiry into the following areas: (1) Registration, authorization or other form of licensing, fitness review or qualification of persons through which customer orders are solicited and accepted; (2) minimum financial requirements for those persons that accept customer funds; (3) protection of customer funds from misapplication; (4) recordkeeping and reporting requirements; (5) minimum sales practice standards, including disclosure of the risks of futures and options transactions and, in particular, the risk of transactions undertaken outside the jurisdiction of domestic law; (6) compliance; and (7) information-sharing.

II. The Proposed Questionnaire

Currently, there are 13 foreign entities² (two regulators and 11 futures exchanges) that have a Regulation 30.10 exemption some of which date back to the late eighties, early nineties. Consequently, the Commission's Division of Clearing and Intermediary Oversight (DCIO) would like to embark upon a program whereby each year, DCIO sends out a questionnaire to exemption recipients inquiring as to material and other relevant changes that impacted our could impact the fundamentals for which exemptive relief was granted in the first place.

The proposed 2010 Questionnaire will ask the following questions:

The following questions relate to material changes that have occurred since the original filing of the 30.10 petition. Please answer the following questions in detail.

1. Have there been any material changes with regards to the identity or organization of the original Petitioner (i.e. change in control, change in name, change in structure, etc.)?

2. Has there been a change in the role of the government, the regulator, or the self-regulatory organization(s) which has or could potentially impact their supervision of and their enforcement powers over the exchange and its members?

3. Has there been any material change in the legal framework which impacted or could impact any of the following:

a. Registration, authorization or other form of licensing, fitness review or qualification of persons through which customer orders are solicited and accepted;

b. Minimum financial requirements for those persons that accept customer funds;

c. Protection of customer funds from misapplication;

d. Recordkeeping and reporting requirements;

e. Minimum sales practice standards, including disclosure of risks of futures and options transactions and, in particular, the risk of transactions undertaken outside the jurisdiction of domestic law; and

f. Compliance (i.e. any change in oversight structure which impacted or could impact the governmental authority or the self-regulatory organization's ability to audit Part 30 firms for compliance with, or take action against persons that violate the requirements of the Part 30 program).

4. What changes, if any, have occurred in insolvency laws as they affect futures customers? If there have been changes to insolvency laws, have the changes occurred within the past two to three years? To what extent do you view any recently proposed changes to insolvency laws as resulting from the 2008–09 financial crisis?

5. Security futures products have both an equity component and a futures component. Consequently, in what accounts are security futures products held (i.e. the equity account, the futures account, or a combined account)? Are security futures products subject to separate disclosure and margin requirements than those required for plain vanilla futures products?

6. Please provide an updated list of all firms with relief under the Regulation 30.10 exemption.

7. Since the granting of the original exemption, please affirm whether 30.10 firms have been subject to arbitration and/or disciplinary proceedings arising from transactions with U.S. customers. To the best extent possible, please provide the number of times and a brief description of such proceedings.

8. Please provide the name and contact information for individuals to whom follow up questions might be directed.

III. Related Matters

A. Regulatory Flexibility Act

The Regulatory Flexibility Act ("RFA"), 5 U.S.C. 601–611, requires that agencies, in proposing rules, consider the impact of those rules on small businesses. The Commission has previously established certain definitions of "small entities" to be used by the Commission in evaluating the impact of its rules on such entities in accordance with the RFA.³ The proposed Questionnaire discussed herein would affect foreign futures exchanges and/or foreign securities regulators who sought and obtained Regulation 30.10 exemptive relief on behalf of its members and/or regulatees. Foreign regulators and exchanges are not included in the definition of "small entities" per 47 FR 18618 and 66 FR 42256. Therefore, the Chairman, on behalf of the Commission, hereby certifies, pursuant to 5 U.S.C. 605(b) that this proposed Questionnaire will

not have an economic impact on a small entities. Nonetheless, the Commission specifically requests comment on the impact this proposed Questionnaire may have on small entities.

Nonetheless, the Commission specifically requests comment on the impact this proposed Questionnaire may have on small entities—New Collection—3038.XXXX.

B. Paperwork Reduction Act

When publishing a proposed questionnaire, the Paperwork Reduction Act of 1995⁴ imposes certain requirements on federal agencies (including the Commission) in connection with their conducting or sponsoring any collection of information as defined by the Paperwork Reduction Act. In compliance with the Act, the Commission, through this Questionnaire proposal, solicits comments to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including the validity of the methodology and assumptions used; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of the information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The Commission has submitted this proposed Questionnaire and its associated information collection requirements to the Office of Management and Budget. The burden associated with this entire New Collection—3038–XXXX—including this proposed Questionnaire, is as follows:

Average burden hours per response: one hour/question

Number of questions: 13

SUPPLEMENTARY INFORMATION: In the **Federal Register** of October 29, 2009 (74 FR 55819), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek extension of approval of the collection of information required in the Standard for the Flammability of Clothing Textiles (16 CFR Part 1610) and the Standard for the Flammability of Vinyl Plastic Film (16 CFR Part 1611). These regulations establish requirements for testing and recordkeeping for manufacturers and importers who furnish guaranties for products subject to the flammability standards for clothing textiles and vinyl plastic film. See 16 CFR Part 1610, Subpart B, and 16 CFR Part 1611, Subpart B.

The Commission uses the information compiled and maintained by firms that issue these guaranties to help protect the public from risks of injury or death associated with clothing and fabrics and vinyl film intended for use in clothing. More specifically, the information helps the Commission arrange corrective actions if any products covered by a guaranty fail to comply with the applicable standard in a manner that creates a substantial risk of injury or death to the public. The Commission also uses this information to determine whether the requisite testing was performed to support the guaranties.

OMB approved the collection of information in the regulations implementing the standards for clothing textiles and vinyl plastic film under control number 3041-0024. The Commission proposes to request an extension of approval for the collection of information in those regulations.
