Although non-emergency issues not contained in this agenda may come before this Council for discussion, those issues may not be the subject of formal Council action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at (503) 820–2280 at least 5 days prior to the meeting date.

Dated: February 16, 2010.

Certain Coated Paper Suitable for High-Quality Print Graphics Using Sheet-Fed Presses From Indonesia and the People's Republic of China: Postponement of Preliminary Determinations of Antidumping Duty Investigations

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: Effective Date: February 19, 2010.

FOR FURTHER INFORMATION CONTACT:

Gemal Brangman (Indonesia) or Demitrios Kalogeropoulos (the People's Republic of China), AD/GVD Operations, Offices 2 and 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482–3773 or (202) 482– 2623, respectively.

SUPPLEMENTARY INFORMATION:

Postponement of Preliminary Determinations

On October 13, 2009, the Department of Commerce ("Department") initiated the antidumping investigations of certain coated paper suitable for high-quality print graphics using sheet-fed presses from Indonesia and the People's Republic of China. See Certain Coated Paper Suitable for High-Quality Print Graphics Using Sheet-Fed Presses From Indonesia and the People's Republic of China: Initiation of Antidumping Duty Investigations, 74 FR 53710 (October 20, 2009).

The notice of initiation stated that unless postponed the Department would issue the preliminary determinations for these investigations no later than 140 days after the date of initiation, in accordance with section 733(b)(1)(A) of the Tariff Act of 1930, as amended ("the Act"). The preliminary determinations are currently due no later than March 2, 2010.

On January 22, 2010, the petitioners, Appleton Coated LLC, NewPage Corporation S.D. Warren Company d/b/a Sappi Fine Paper North America, and United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, made a timely request pursuant to section 733(c)(1)(A) of the Act and 19 CFR 351.205(e) for a 50-day postponement of the preliminary determinations. The petitioners requested postponement of the preliminary determinations in order to ensure that the Department has ample time to thoroughly analyze the complex issues involved in these investigations.

Because there are no compelling reasons to deny the request, the Department is postponing the deadline for the preliminary determinations pursuant to section 733(c)(1)(A) of the Act to April 21, 2010, 190 days from the date of initiation. The deadline for the final determinations will continue to be 75 days after the date of the preliminary determinations, unless postponed.

This notice is issued and published pursuant to sections 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: February 4, 2010.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration.

Species Recovery Grants to Tribes Program

AGENCY: Fisheries Protected Resources Program Office (PRPO), National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce. **ACTION:** Notice of funding availability.

SUMMARY: The National Marine Fisheries Service publishes this notice to solicit proposals for the Species Recovery Grants to Tribes Program. The principal objective of the Program is to support recovery efforts that directly benefit threatened or endangered species, recently de-listed species, or candidate species. Recovery efforts may involve management, research, monitoring, and outreach activities or any combination thereof. For FY 2010, NOAA anticipates that approximately \$1 million will be available for distribution under this program. Only federally recognized tribes are eligible to apply under this solicitation.

DATES: Applications must be postmarked, provided to a delivery

service, or received by www.grants.gov by 11:59 p.m. Eastern Standard Time [April 5, 2010]. Use of a delivery service other than U.S. mail must be documented with a receipt. Please Note: It may take Grants.gov up to two business days to validate or reject an application.

ADDRESSES: The Federal funding announcement and application instructions for this grant program are available via the Grants.gov website at http://www.grants.gov. Applicants without internet access can obtain application instructions from Lisa Manning, NOAA/NMFS/Office of Protected Resources, 1315 East-West Highway, Silver Spring MD 20912, (phone) 301–713–1401, (email) Lisa.Manning@noaa.gov.

FOR FURTHER INFORMATION CONTACT: If you have any questions regarding this proposal solicitation, please contact Lisa Manning or Sean Ledwin at the NOAA/ NMFS/Office of Protected Resources, Endangered Species Division, 1315 East-West Highway, Silver Spring, MD 20910, by phone at 301-713-1401, or by email (Lisa.Manning@noaa.gov or Sean.Ledwin@noaa.gov). You may also contact one of the following people in your region for further guidance: Jessica Pruden, Northeast Regional Office (Jessica.Pruden@noaa.gov, 978-282-8482); Karla Reece, Southeast Regional Office (Karla.Reece@noaa.gov, 727-824-5348); Eric Murray, Northwest Regional Office (Eric.Murray@noaa.gov, 503-231-2378); Susan Wang, Southwest Regional Office (Susan. Wang@noaa.gov, 562-980-4199); Barbara Mahoney, Alaska Regional Office (Barbara.Mahoney@noaa.gov, 907-271-3448).

SUPPLEMENTARY INFORMATION: Success in recovering protected species under National Marine Fisheries Service's (NMFS) jurisdiction depends in large part on working cooperatively with other management partners, including tribes. NMFS recognizes the importance of many of these protected species to tribes and ongoing efforts by tribal nations to conserve and protect these species. NMFS is authorized under 16 U.S.C. 661 et seq. to provide Federal assistance to federally recognized tribes to support conservation programs for marine and anadromous species under its jurisdiction. This assistance, provided in the form of grants, can be used to support conservation of endangered, threatened, and candidate or proposed species, as well as postdelisting monitoring of recovered species.

Through this notice, NMFS announces the solicitation of proposals to support conservation programs for marine and anadromous species under its jurisdiction. Funded activities may include development and implementation of management plans, scientific research, and public education and outreach. Proposals should address priority actions identified in an Endangered Species Act (ESA) Recovery Plan where applicable.

Successful applications will be those that demonstrate a direct conservation benefit to the species or its habitat. Proposals involving management activities should demonstrate a high probability of contributing to recovery of the species, especially through mitigation of existing threats or factors inhibiting recovery of the species. Proposals involving scientific research should demonstrate a high probability of providing information that can be used to recover, manage, or improve current management strategies for a given species. Proposals involving public education and outreach projects should demonstrate a high probability of improving or increasing public understanding and participation in conservation activities.

Projects focusing on listed Pacific salmon or steelhead will not be considered under this grant program; conservation efforts for these species may be supported through the Pacific Coastal Salmon Recovery Fund.

The full text of the Federal funding opportunity announcement for this program can be accessed via the Grants.gov web site at http://www.grants.gov. The announcement will also be available by contacting the program officials identified under FOR FURTHER INFORMATION CONTACT.

Applications must comply with all requirements contained in the Federal funding opportunity announcement.

11.472, Unallied Science Program

Funding Availability

NOAA anticipates that approximately \$1 million will be available for distribution under this program in FY 2010. Awards are expected to range between \$100,000 and \$500,000 in federal funding per year, but proposals requesting less than \$100,000 will still be considered. The exact amount of funds that may be awarded will be determined during pre-award negotiations between the applicant and NOAA representatives. Publication of
