SUPPLEMENTARY INFORMATION: Notice of this meeting is given under the Federal Advisory Committee Act (FACA), 5 U.S.C. App. (Pub. L. 92-463).

The NAVSAC is an advisory committee authorized in 33 U.S.C. 2073 and chartered under the provisions of the FACA. NAVSAC provides advice and recommendations to the Secretary, through the Commandant of the U.S. Coast Guard, on matters relating to prevention of maritime collisions, rammings, and groundings; including the Inland and International Rules of the Road, navigation regulations and equipment, routing measures, marine information, diving safety, and aids to navigation systems.

Agenda

The NAVSAC will meet to review, discuss and formulate recommendations on the following topics:

Wednesday, May 4, 2011

(1) Coastal Marine Spatial Planning (CMSP)

Executive Order 13547 directed Federal Agencies to take a new approach to stewardship of the oceans, coasts, and Great Lakes. CMSP is one facet of that initiative. This topic will address the Coast Guard's plans for implementing CMSP.

(2) Navigation Rules Regulatory Project

This topic will address the Coast Guard's progress toward implementing NAVSAC approved changes to the Inland Navigation Rules.

(3) E-Navigation Strategy

Under the auspices of the Committee on the Marine Transportation System, the Coast Guard and other agencies are developing a National e-Navigation Strategy that will establish a framework for data exchange between and among ships and shore facilities. This topic will update the Council on that effort.

(4) Electronic Chart Display and Information System (ECDIS)

Mandatory carriage of ECDIS will be phased in beginning in 2012. This series of presentations will inform the Council of developments and difficulties encountered in deploying ECDIS, including accuracy of charted positions, the range of vessels to be impacted, and training requirements for ECDIS.

(5) Virtual Aids to Navigation

Aids to Navigation authorities are considering deploying virtual aids to navigation as an alternative to physical lights, daybeacons and buoys under certain circumstances. This topic will inform the Council on virtual aids and discuss their possible use in U.S. waters.

The following tasks will also be discussed and recommendations formulated:

(1) NAVSAC Task 11-01 Sky Sails

The use of Sky Sails to augment propulsion on vessels is a real possibility. This task will address whether there should be restrictions on their use.

(2) NAVSAC Task 11-02 Proximity of Offshore Energy Installations to Established Ships Routing Measures

The Council will be asked if there should be regulated "buffer zones" around offshore renewable energy installations and if so, what the size of the zones should be.

(3) NAVSAC Task 08-07 Autonomous Unmanned Vessels

The Council will continue its discussion of autonomous unmanned vessels and discuss their implications for the Inland Navigation Rules.

A public comment period will be held from 3 to 4 p.m. Speakers comments limited to 10 minutes each. Public comments or questions will be taken at the discretion of the DFO during the discussion and recommendation portion of the meeting.

Thursday, May 5, 2011
