

bridges will open on signal for all commercial vessels, federal, state, and local government vessels used for public safety, vessels in distress, or seeking shelter from severe weather. If at any time more than 10 vessels accumulate at either bridge the bridge will open and allow all vessel traffic to clear the bridge. Vessels that may pass under the bridges without an opening may do so at anytime. In accordance with 33 CFR 117.35(e), the drawbridges must return to their regular operating schedule immediately at the end of the designated time period. Basis and Purpose

The subject bridge is the S443 Swing Bridge across the Bayou Liberty at mile 2.0, in St. Tammany Parish. The vertical clearance is 7.59 feet (2.31m) above the 2% flowline, elevation 2.5 feet (0.76m) NAVD 1988.

Presently, under 33 CFR 117.469, the draw of the S433 Bridge, mile 2.0, at Slidell, shall open on signal, except that between 7 p.m. and 7 a.m., the draw shall open on signal if at least two hours notice is given.

The owner requests a test to allow the public to experience and then comment on the proposed schedule. The current regulation has been in effect since 2008; however, the bridge for which the regulation was in place (a pontoon bridge) no longer exists. With the completion of the new bridge (a swing bridge) in April 2010, it was shown that there was an average of less than one opening per month which is a marked decrease from an average of 70 per month the previous year. Currently, most traffic, land and marine, is local with land traffic outpacing marine traffic, and most marine traffic is recreational. Vessels will be able to pass under the bridge during the deviation and therefore no alternate routes are recommended at this time.

This deviation is effective from June 1, 2011 through September 9, 2011.

Vessel counts were collected and analyzed by the owner and reflect a marked reduction in the number of required openings since the completion of the new bridge and removal of the old one. The expected impact on navigation during the test period will be minimal based on the increase in vertical clearance and the recorded decrease in number of requested openings. The test deviation will allow the bridge to remain unmanned during most of the day by requiring a one-hour notice for an opening of the draw Monday through Friday from 7 a.m. to 7 p.m. and a two-hour notice from 7 p.m. to 7 a.m. seven days a week.

Coordination with mariners will be through Public Notice and Local Notice to Mariners upon date of publication in the **Federal Register**.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular

operating schedule immediately at the end of the designated time period.

This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 21, 2011.

David M. Frank,

Bridge Administrator.

ACTION: Interim final rule with request for comments.

Entry into, transit through, mooring, or anchoring within the zones during time of enforcement is prohibited unless authorized by the Captain of the Port, Ohio Valley or designated representative.
