BILLING CODE 4510-FN-P

DEPARTMENT OF LABOR

Employment and Training Administration

[TA-W-71,859, TA-W-71,859A]

Faribault Woolen Mill Company, Faribault, MN; Faribo Woolens, Inc., a Related Company of Faribault Woolen Mill Company, Faribault, MN; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, as amended ("Act"), 19 U.S.C. 2273, the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on December 9, 2009, applicable to workers of Faribault Woolen Mill Company, Faribault, Minnesota. The notice was published in the **Federal Register** on January 25, 2010 (75 FR 3930).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of wool and wool blend blankets.

New findings show that worker separations occurred during the relevant time period at Faribo Woolens, Inc., a Related Company of Faribault Woolen Mill Company, a retail outlet store for the subject firm, Faribault Woolen Mill Company.

Accordingly, the Department is amending the certification to include workers of the Faribo Woolens, Inc., A Related Company of Faribault Woolen Mill Company, Faribault, Minnesota.

The intent of the Department's certification is to include all workers of the subject firm who were adversely affected by increased imports of wool and wool blend blankets.

The amended notice applicable to TA-W-71,859 is hereby issued as follows:

All workers of Faribault Woolen Mill Company, Faribault, Minnesota (TA-W-71,859) and Faribo Woolens, Inc., A Related Company of Faribault Woolen Mills Company, Faribault, Minnesota (TA-W-71,859A), who became totally or partially separated from employment on or after July 29, 2008, through December 9, 2011, and all workers in the group threatened with total or partial separation from employment on date of certification through two years from the date of certification, are eligible to apply for adjustment assistance under Chapter 2 of Title II of the Trade Act of 1974, as amended.

Signed in Washington, DC, this 3rd day of March, 2011.

Michael W. Jaffe,

Certifying Officer, Office of Trade Adjustment Assistance.

BILLING CODE 4510-FN-P

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (Pub. L. 95-541)

AGENCY: National Science Foundation.

ACTION: Notice of Permit Modification Received under the Antarctic Conservation Act of 1978, Public Law 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 Part 670 of the Code of Federal Regulations. This is the required notice of a requested permit modification.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by June 24, 2011. Permit applications may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT: Nadene G. Kennedy at the above address or (703) 292-7405.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and

designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Description of Permit Modification Requested: The Foundation issued a permit (2009-013) to Dr. Robert Pitman on October 10, 2008. The issued permit allows the applicant access to satellite tag or attach suction cup tags and take skin biopsies from Killer whales, Minke whales and Humpback whales to study their movement patterns, diet preferences, and genetics.

The applicant requests a modification to his permit to add two additional whale species: 200 Blue whales and 200 Fin whales. In addition, the applicant wishes to revise his current takes to 400 Killer whales, 300 Humpback whales, and 50 Minke whales.

Location: Ross Sea and McMurdo Sound area and the Antarctic Peninsula regions.

Dates: October 1, 2011 to January 1, 2014.

Nadene G. Kennedy,

Permit Officer, Office of Polar Programs.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-0009; NRC-2010-0188]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for the License Amendment for the Fort St. Vrain Independent Spent Fuel Storage Installation

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT: Jean Trefethen, Project Manager, Environmental Review Branch A, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: 301-415-5137; Fax: 301-415-5369; e-mail: Jean.Trefethen@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering an application dated November 10, 2009, from the U.S. Department of Energy

(DOE) for the renewal of the Special Nuclear Materials (SNM) License SNM-2504 for the Fort St. Vrain (FSV) Independent Spent Fuel Storage Installation (ISFSI) located in Platteville, Colorado. If granted, the renewed license will authorize DOE to continue to possess and store spent fuel and associated radioactive wastes at the FSV ISFSI. License SNM-2504 expires on November 30, 2011. This renewal, if granted, will extend the term of license SNM-2504 to November 30, 2031.

The NRC has prepared an Environmental Assessment (EA) as part of its review of this proposed license renewal in accordance with the requirements of 10 CFR part 51. Based on the EA, the NRC has determined that a Finding of No Significant Impact (FONSI) is appropriate. The NRC is also conducting a safety evaluation of this action, pursuant to 10 CFR part 72. The results of the safety evaluation will be documented in a separate Safety Evaluation Report. If DOE's request is approved, the NRC will issue a renewed license following the publication of this EA and FONSI.

II. EA Summary

The proposed licensing action is to renew license SNM-2504 for an additional 20 years to authorize the continued operation of the FSV ISFSI in Platteville, Colorado. If approved, DOE will be allowed to possess and store spent fuel and associated radioactive wastes at the FSV ISFSI until November 30, 2031.

The FSV ISFSI uses a Modular Vault Dry Storage (MVDS), which is a contained shield system designed for 40 years of interim storage of the FSV High

Temperature Gas Cooled Reactor (HTGR) fuel. The FSV reactor was built and operated during the 1970s and 1980s. It was permanently shut down in 1989 and decommissioned. Some of the spent fuel is in dry storage at DOE's Idaho National Engineering Laboratory (INEL) facility. Facilities were not made available at INEL to store all the spent fuel and associated radioactive waste from the FSV reactor. Renewal of materials license SNM-2504 is needed for further safe storage of spent fuel at the FSV ISFSI.

The NRC has prepared an EA as part of its review of the proposed license renewal. The NRC staff considered the following environmental resource areas in its evaluation: Air quality; noise; land use; water use and quality; socioeconomic; historic, archaeological, and cultural resources; threatened and endangered species; scenic and visual; waste management; transportation; and public and occupational health and safety.

The environmental impacts of these resource areas were determined to be the small. The proposed license renewal request does not require altering the site footprint nor does it change the operating processes of the existing facility. The proposed action will not adversely affect Federal- or state-listed threatened or endangered species. Public and occupational radiological dose exposures have been and are expected to be below 10 CFR part 20 regulatory limits. Cumulative impacts over the 20-year renewal period were also evaluated and determined to be small. Therefore, the NRC staff concludes that the proposed action will

not result in a significant effect on the quality of the human environment.

NRC staff consulted with other agencies regarding the proposed action, including regional Native American Tribes, the Colorado Department of Public Health and Environment, the Colorado Historical Society, and the U.S. Fish and Wildlife Service. The consultations ensured that the requirements of Section 7 of the Endangered Species Act and Section 106 of the National Historic Preservation Act were met and provided the designated State liaison agency the opportunity to comment on the proposed action.

III. Finding of No Significant Impact

On the basis of the EA, the NRC staff concludes that renewal of license SNM-2504 for the FSV ISFSI will not significantly affect the quality of the human environment. Therefore, pursuant to 10 CFR 51.31 and 51.32, an environmental impact statement is not warranted for the proposed action, and a FONSI is appropriate.

IV. Further Information

Documents related to this action, including the application for renewal of SNM-2504 and supporting documentation, are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-269, 50-270, and 50-287; NRC-2011-0113]

Duke Energy Carolinas, LLC, Oconee Nuclear Station, Units 1, 2, and 3, Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing and Order Imposing Procedures for Document Access to Sensitive Unclassified Non-Safeguards Information

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of license amendment request, opportunity to comment, opportunity to request a hearing, and Commission order.

DATES: Submit comments by June 24, 2011. A request for a hearing must be filed by July 25, 2011. Any potential party as defined in 10 CFR 2.4 who believes access to Sensitive Unclassified Non-Safeguards Information (SUNSI) is necessary to respond to this notice must request document access by June 6, 2011.

ADDRESSES: You may submit comments by any one of the following methods. Please include Docket ID NRC-2011-0113 in the subject line of your comments. Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site <http://www.regulations.gov>. Because your

comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed. You may submit comments by any one of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for documents filed under Docket ID NRC-2011-0113. Address questions about NRC dockets to Carol Gallagher 301-492-3668; e-mail Carol.Gallagher@nrc.gov.

- *Mail comments to:* Cindy Bladey, Chief, Rules, Announcements and Directives Branch (RADB), Office of Administration, Mail Stop: TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001,

- *Fax comments to:* RADB at 301-492-3446. You can access publicly available documents related to this notice using the following methods:

NRC's Public Document Room (PDR): The public may examine, and have copied for a fee, publicly available documents at the NRC's PDR, Room O1 F21, One White Flint North, 11555
