

38500), informing the public of the availability of the Draft Environmental Impact Statement (DEIS) that analyzes the potential effects of implementing each of six (6) on-site land-use and eleven (11) off-site water supply alternative scenarios for a mixed-use development in the approximately 3,502-acre Folsom South of U.S. Highway 50 Specific Plan Project Area.

The FEIS has been prepared to respond to comments received from agencies, organizations, and members of the public on the 2010 DEIS, and to present corrections, revisions, and other clarifications and amplifications of the 2010 DEIS, including minor project modifications made in response to these comments and as a result of the applicants' ongoing planning efforts.

The FEIS has been prepared as joint documents with the City of Folsom (City). The City is the local agency responsible for preparing an Environmental Impact Report in compliance with the California Environmental Quality Act (CEQA). The USACE is the lead Federal agency responsible for the FEIS and information contained in the DEIS and FEIS serves as the basis for a decision regarding issuance of an individual permit under Section 404 of the Clean Water Act. It also provides information for Federal, state and local agencies having jurisdictional responsibility for affected resources. All incoming comments on the FEIS will be considered by USACE and responses will be provided for substantive issues raised which have not been addressed in the DEIS or FEIS.

DATES: All written comments must be postmarked on or before June 26, 2011.

ADDRESSES: Comments may be submitted in writing to: Lisa M. Gibson, U.S. Army Corps of Engineers, Sacramento District, Regulatory Division; 650 Capitol Mall, Suite 5-200, Sacramento, CA 95814, or via e-mail to Lisa.M.Gibson2@usace.army.mil.

FOR FURTHER INFORMATION CONTACT: Lisa M. Gibson, (916) 557-5288, or via e-mail at Lisa.M.Gibson2@usace.army.mil.

SUPPLEMENTARY INFORMATION: The South Folsom Property Owners Group, the project applicants, are seeking adoption by the City of the proposed SPA project and associated entitlements. The City and the South Folsom Property Owners Group are also seeking authorization from USACE for the placement of dredged or fill material into waters of the United States pursuant to Section 404 of the Clean Water Act. The Proposed Project includes 10,210 residential units at various densities on a total of 1,477.2 acres; 362.8 acres

designated for commercial and industrial use, including a regional shopping center; public/quasi-public uses; elementary, middle, and high schools on 179.3 acres; 121.7 acres of community and neighborhood parks; stormwater detention basins; 1,053.1 acres of open-space areas and open-space preserves; and major roads with landscaping. In addition, the proposed project includes the construction of several off-site infrastructure facilities, including intersection expansions to allow access to and from U.S. 50 and the SPA, an overpass of U.S. 50, two roadway connections and sewer pipelines from the SPA into El Dorado Hills, a sewer force main connection to the existing City system, a detention basin and water pipelines and facilities. The SPA contains approximately 84.94 acres of waters of the U.S. The proposed land-use plan would involve the discharge of fill material into approximately 39.50 acres of waters of the U.S., and indirect impacts to 0.29 acres of waters of the U.S. resulting from fragmentation of existing waters. In addition, the proposed land-use plan involves the preservation of approximately 44.19 acres of waters of the U.S., concentrated primarily on the Alder Creek corridor and adjacent tributaries and wetlands.

For the proposed off-site water supply/alignment for the SPA, the City is proposing off-site water facilities that would involve the permanent assignment to the City of the contractual entitlements to Central Valley Project (CVP) contract entitlement water, totaling not more than 8,000 acre-feet per year (AFY) from the Natomas Central Mutual Water Company (NCMWC), diverting the water supply from the Sacramento River and conveying the water to the SPA. The proposed water supply would also involve the City purchasing dedicated capacity within the Freeport Regional Water Project (Freeport Project) from Sacramento County Water Agency (SCWA), which would serve as the point of diversion (POD) on the Sacramento River and partial conveyance pathway for not more than 6,000 AFY purchased from NCMWC. The City proposes to add the Freeport POD to the assigned CVP water to facilitate the diversion of these supplies at the existing Freeport Project diversion. The City proposes to pump and convey the assigned NCMWC CVP water supply through the Freeport Project diversion facility and conveyance pipeline to the point where SCWA and East Bay Municipal Utility District pipelines split. The City would

then construct new water supply conveyance infrastructure from the bifurcation point to the SPA within an approximately 200-foot corridor. The corridor for the proposed construction of the water line and the proposed location for water treatment plants contains approximately 50.7 acres of waters of the U.S. The estimate of waters of the U.S. within the proposed water supply corridor was determined based on aerial photographs and National Wetland Inventory maps, and has not been field delineated or verified by USACE. Because the City has not yet completed project specific engineering details for the proposed off-site water supply/alignment, the exact impacts to waters of the U.S. cannot be determined. However, construction of the water supply infrastructure is expected to occur within an area of less than 100 feet in width, and, depending on which side of the corridor construction would occur, would impact an estimated 5.7 acres or 6.8 acres of waters of the U.S.

An electronic version of the FEIS may be viewed at the USACE, Sacramento District Web site: <http://www.spk.usace.army.mil/organizations/cespk-co/regulatory/EISs/EIS-index.html>. In addition, a hardcopy of the FEIS may also be reviewed at the Folsom Public Library, Georgia Murray Building, 411 Stafford Street, Folsom, California 95630.

Dated: May 12, 2011.

Andrew B. Kiger,
Lieutenant Colonel, U.S. Army, District Engineer.

DEPARTMENT OF EDUCATION

Notice of Submission for OMB Review

AGENCY: Department of Education.

ACTION: Comment Request.

SUMMARY: The Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management, invites comments on the submission for the Office of Management and Budget (OMB) review as required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13).

DATES: Interested persons are invited to submit comments on or before June 27, 2011.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Education Desk Officer, Office of Management and Budget, 725

17th Street, NW., Room 10222, New Executive Office Building, Washington, DC 20503, be faxed to (202) 395-5806 or e-mailed to

oir_submission@omb.eop.gov with a cc: To ICDocketMgr@ed.gov. Please note that written comments received in response to this notice will be considered public records.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that OMB provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The OMB is particularly interested in comments which: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: May 20, 2011.

Darrin A. King,

Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management.

Office of Management

Type of Review: New collection (request for a new OMB control number).

Title of Collection: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

OMB Control Number: 1880-New.

Agency Form Number(s): N/A.

Frequency of Responses: On Occasion.

Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 7,100.

Total Estimated Annual Burden Hours: 3,550.

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions,

but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

We received no comments in response to the 60-day notice published by OMB in the **Federal Register** on December 22, 2010 (75 FR 80542).¹

Copies of the information collection submission for OMB review may be accessed from the *RegInfo.gov* Web site at <http://www.reginfo.gov/public/do/PRAMain> or from the Department's Web site at <http://edicsweb.ed.gov>, by selecting the "Browse Pending

¹ The 60-day notice included the following estimate of the aggregate burden hours for this generic clearance Federal-wide:

Average Expected Annual Number of Activities: 25,000.

Average Number of Respondents per Activity: 200.

Annual Responses: 5,000,000.

Frequency of Response: Once per request.

Average Minutes per Response: 30.

Burden Hours: 2,500,000.

Collections" link and by clicking on link number 4558. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., LBJ, Washington, DC 20202-4537. Requests may also be electronically mailed to the Internet address ICDocketMgr@ed.gov or faxed to 202-401-0920. Please specify the complete title of the information collection and OMB Control Number when making your request.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

Applications for New Awards; Technical Assistance and Dissemination To Improve Services and Results for Children With Disabilities—National Assessment Center

AGENCY: Department of Education.

ACTION: Notice.

Overview Information

Technical Assistance and Dissemination To Improve Services and Results for Children with Disabilities—National Assessment Center.

Notice inviting applications for new awards for fiscal year (FY) 2011.

Catalog of Federal Domestic Assistance (CFDA) Number: 84.326G.

DATES: *Applications Available:* May 26, 2011.

Deadline for Transmittal of Applications: July 11, 2011.

Deadline for Intergovernmental Review: September 8, 2011.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities program is to promote academic achievement and to improve results for children with disabilities by providing technical assistance (TA), supporting model demonstration projects, disseminating useful information, and implementing activities that are supported by scientifically based research.
