

certification applicable to workers and former workers of the subject firm. The State alleged that the subject worker group is concurrently eligible to apply for Trade Adjustment Assistance (TAA) benefits under a previously issued certification.

The review of information supplied by the State shows that the same worker group was covered under an existing certification for all workers of Hewlett Packard Company, Enterprise Business Division, Technical Services America, Global Parts Supply Chain Group, including leased workers from QFlex, North America Logistics and UPS teleworkers across Texas and on-site, Houston, Texas (TA-W-74,466I; issued September 10, 2010). The Department's Notice of certification was published in the **Federal Register** on September 10, 2010 (75 FR 57982).

Since eligible workers covered under TA-W-74,671 who have not yet received TAA benefits will be eligible to apply for these benefits under TA-W-74,466I (a certification issued two months before TA-W-74,671), the Department is terminating the later certification. It is the Department's intent to terminate the latter certification to correct the duplicate coverage of eligible workers and the possibility of unintended duplication of benefits.

Pursuant to 29 CFR 90.17(b), the group of workers or any persons showing a substantial interest in the termination of this certification are invited to submit written comments to the Director, Office of Trade Adjustment

Assistance, U.S. Department of Labor, Room N-5428, 200 Constitution Avenue, NW., Washington, DC 20210, no later than ten (10) days from the date of the publication of this Notice in the **Federal Register**.

Pursuant to 29 CFR 90.17(d), any termination shall apply only to those workers who are totally or partially separated after the termination date specified in the determination.

Signed in Washington, DC, this 6th day of June, 2011

[Docket No. 70-7018; NRC-2008-0369]

**Environmental Assessment and Finding of No Significant Impact for Special Nuclear Material License Application From Tennessee Valley Authority for Watts Bar Nuclear Plant, Unit 2, Spring City, TN****AGENCY:** Nuclear Regulatory Commission.**ACTION:** Publication of Environmental Assessment and Finding of No Significant Impact.**FOR FURTHER INFORMATION CONTACT:**

Mary T. Adams, Senior Environmental Engineer, Advanced Fuel Cycle, Enrichment, and Uranium Conversion Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555. *Telephone:* 301-492-3113; *Fax number:* 301-492-3359; *E-mail:* [Mary.Adams@nrc.gov](mailto:Mary.Adams@nrc.gov).

**SUPPLEMENTARY INFORMATION:****I. Introduction**

The U.S. Nuclear Regulatory Commission (NRC) is considering the issuance of a license to Tennessee Valley Authority (TVA), to authorize the receipt, possession, inspection, and storage of special nuclear material (SNM) in the form of 193 fresh fuel assemblies at TVA's Watts Bar site in Spring City, TN. This license would be subject to the requirements of Title 10 of the Code of Federal Regulations (10 CFR), part 70. TVA plans to use this SNM in operating its proposed Watts Bar Nuclear Plant, Unit 2 (WBN2). TVA's request for authorization to operate WBN2 is the subject of a separate 10 CFR part 50 licensing action being evaluated by the NRC. TVA's existing reactor at the Watts Bar site, Unit 1 (WBN1), has operated since 1996.

The NRC has prepared an environmental assessment (EA), set forth below, in support of the SNM storage license, in accordance with 10 CFR part 51 (Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions), which implements section 102(2) of the National Environmental Policy Act
