SUPPLEMENTARY INFORMATION: On September 23, 1994, Section 303 (a) of the Riegle Community Development and Regulatory Improvement Act of 1994 was signed into law. Section 303 (a) of this Act requires the Federal bank and thrift regulatory agencies to conduct a systematic review of their regulation and written policies in order to improve efficiency, reduce unnecessary costs, and eliminate inconsistencies and outmoded and duplicative requirements. Title V of this Act is the National Flood Insurance Reform Act (NFIRA). Section 528 of the NFIRA requires that FEMA develop a standard hazard determination form for recording the determination of whether a structure is located within an identified Special Flood Hazard Area (SFHA) and whether flood insurance is available. Section 528 of the NFIRA also requires the use of

this form by regulated lending institutions, federal agency lenders, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, and the Government National Mortgage Association for any loan made, increased, extended, renewed or purchased by these entities.

The requirement for federally regulated lending institutions to determine whether a building or mobile home securing a loan is located in an area having special flood hazards and whether flood insurance is available, has been in effect since the enactment of the Flood Disaster Protection Act of 1973, although the use of a standard form was not required until the enactment of the Riegle Community Development and Regulatory Improvement Act of 1994. The establishment of the Standard Flood Hazard Determination form has enabled lenders to provide consistent information.
