

# Notices

Federal Register

Vol. 76, No. 144

Wednesday, July 27, 2011

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## AGENCY FOR INTERNATIONAL DEVELOPMENT

### Privacy Act of 1974, System of Records

**AGENCY:** United States Agency for International Development.

**ACTION:** Notice of new system of records.

**SUMMARY:** The United States Agency for International Development (USAID) is issuing public notice of its intent to establish a new system of records maintained in accordance with the Privacy Act of 1974 (5 U.S.C. 552a), as amended, entitled "USAID-30, Google Apps Business Edition". This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of record systems maintained by the agency (5 U.S.C. 522a(e)(4)).

**DATES:** Public comments must be received on or before September 9, 2011. Unless comments are received that would require a revision; this update to the system of records will become effective on September 9, 2011.

**ADDRESSES:** You may submit comments:

#### Paper Comments

- *Fax:* (703) 666-1466.
- *Mail:* Chief Privacy Officer, United States Agency for International Development, 2733 Crystal Drive, 11th Floor, Arlington, VA 22202

#### Electronic Comments

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions on the Web site for submitting comments.
- *E-mail:* [privacy@usaid.gov](mailto:privacy@usaid.gov).

**FOR FURTHER INFORMATION CONTACT:** For general questions, please contact, USAID Privacy Office, United States Agency for International Development, 2733 Crystal Drive, 10th Floor, Arlington, VA 22202. E-mail: [privacy@usaid.gov](mailto:privacy@usaid.gov).

**SUPPLEMENTARY INFORMATION:** The Google Apps Business Edition is being established as an Agency-wide system of record as it is required to collect, maintain or store personal data requiring protection under the Privacy Act. It is an e-mail and collaboration application suite hosted in Software as a Service ("SaaS") cloud computing model. The suite is composed of Gmail for e-mail, Google Docs for office productivity and collaboration, and Google Sites for Wiki style Web sites. This application will enable USAID to transition to a new e-mail and data application solution.

Dated: July 03, 2011.

**William Morgan,**

*Chief Information Security Officer—Chief Privacy Officer.*

#### USAID-30

##### SYSTEM NAME:

Google Apps Business Edition.

##### SECURITY CLASSIFICATION:

Sensitive But Unclassified.

##### SYSTEM LOCATION(S):

United States Agency for International Development, 2733 Crystal Drive, 11th Floor, Arlington, VA 22202.

##### CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

This system contains records of current employees, contractors, consultants, and partners.

##### CATEGORIES OF RECORDS COVERED BY THE SYSTEM:

This system contains USAID organizational information. At a solution wide level the system will collect and display First and Last Name, Work Phone Number, and Work Address. This information is automatically collected from USAID's Active Directory of user objects. Users additionally have an option to create and maintain personal address books, accessible to only them or to users they grant access to. In these personal address books the user may manually enter First and Last Name, Home Address, Home Phone, and Date of Birth.

##### AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Privacy Act of 1974 (Pub. L. 93-579), sec. 552a (c), (e), (f), and (p).

##### PURPOSE(S):

Records in this system will be used:

(1) The solution wide information is available to all USAID users provisioned in the Google Apps system for e-mail, calendaring, and collaboration tools.

(2) The personal address book information is available to the user that created the personal address book or to users that are granted access.

##### DISCLOSURE TO CONSUMER REPORTING AGENCIES:

These records are not disclosed to consumer reporting agencies.

##### ROUTINE USE OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

USAID may disclose relevant system records in accordance with any current and future blanket routine uses established for its record systems. These may be for internal communications or with external partners.

##### POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

##### STORAGE:

Electronic records are maintained in user-authenticated, password-protected systems. All records are accessed only by authorized personnel who have a need to access the records in the performance of their official duties.

##### RETRIEVABILITY:

Contact Sharing creates a searchable directory of the user names and e-mail addresses in your domain, and shares this directory with everyone in your organization. By default, the directory includes each user's primary e-mail address and any e-mail aliases or nicknames. As a Google Apps account administrator, you can control which of these e-mail addresses appear in the directory by adjusting the Contact Sharing settings. You can also hide users from the shared contact list.

E-mail addresses that users saved as Personal Contacts are not included in the directory and are not affected by changes made to the Contact Sharing setting. Suspended and deleted users also do not appear in the directory.

All users in your domain can find contacts listed in the directory through Contacts search, Contacts details view, and any autocomplete function in each Google App enabled for your domain.

Contact Sharing is automatically enabled in your Google Apps account, but can be disabled (and re-enabled) at any time.

**SAFEGUARDS:**

Additional administrative safeguards are provided through the use of internal standard operating procedures.

**RETENTION AND DISPOSAL:**

Records are retained using the appropriate, approved National Archives Records Administration—Schedules for the type of record being maintained.

**SYSTEM MANAGER(S) AND ADDRESS:**

Sukhvinder Singh, United States Agency for International Development, 2733 Crystal Drive, 11th Floor, Arlington, VA. 22202.

**NOTIFICATION PROCEDURES:**

Individuals requesting notification of the existence of records on them must send the request in writing to the Chief Privacy Officer, USAID, 2733 Crystal Drive, 11th Floor, Arlington, VA 22202. The request must include the requestor's full name, his/her current address and a return address for transmitting the information. The request shall be signed by either notarized signature or by signature under penalty of perjury and reasonably specify the record contents being sought.

**RECORD ACCESS PROCEDURES:**

Individuals wishing to request access to a record must submit the request in writing according to the "Notification Procedures" above. An individual wishing to request access to records in person must provide identity documents, such as government-issued photo identification, sufficient to satisfy the custodian of the records that the requester is entitled to access.

**CONTESTING RECORD PROCEDURES:**

An individual requesting amendment of a record maintained on himself or herself must identify the information to be changed and the corrective action sought.

Requests must follow the "Notification Procedures" above.

**RECORD SOURCE CATEGORIES:**

The records contained in this system will be provided by and updated by the individual who is the subject of the record.

**EXEMPTIONS CLAIMED FOR THE SYSTEM:**

None.

**BILLING CODE P****DEPARTMENT OF AGRICULTURE****Animal and Plant Health Inspection Service**

[Docket No. APHIS-2011-0018]

**Notice of Decision To Authorize the Importation of Fresh Persimmon From the Republic of South Africa**

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Notice.

**SUMMARY:** We are advising the public of our decision to authorize the importation into the continental United States of fresh persimmon fruit from the Republic of South Africa. Based on the findings of a pest risk analysis, which we made available to the public for review and comment through a previous notice, we believe that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh persimmon fruit from South Africa.

**DATES:** *Effective Date:* July 27, 2011.

**FOR FURTHER INFORMATION CONTACT:** Mr. Phillip B. Grove, Regulatory Coordinator, Regulatory Coordination and Compliance, PPQ, APHIS, 4700 River Road Unit 156, Riverdale, MD 20737-1236; (301) 734-6280.

**SUPPLEMENTARY INFORMATION:****Background**

Under the regulations in "Subpart—Fruits and Vegetables" (7 CFR 319.56–1 through 319.56–51, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into and spread within the United States.

Section 319.56–4 of the regulations contains a performance-based process for approving the importation of commodities that, based on the findings of a pest risk analysis (PRA), can be safely imported subject to one or more of the designated phytosanitary measures listed in paragraph (b) of that section. Under that process, APHIS publishes a notice in the **Federal Register** announcing the availability of the PRA that evaluates the risks associated with the importation of a particular fruit or vegetable. Following the close of the 60-day comment period, APHIS may authorize the importation of the fruit or vegetable subject to the

identified designated measures if: (1) No comments were received on the PRA; (2) the comments on the PRA revealed that no changes to the PRA were necessary; or (3) changes to the PRA were made in response to public comments, but the changes did not affect the overall conclusions of the analysis and the Administrator's determination of risk.

In accordance with that process, we published a notice<sup>1</sup> in the **Federal Register** on March 21, 2011 (76 FR 15280, Docket No. APHIS-2011-0018), in which we announced the availability, for review and comment, of a PRA that evaluates the risks associated with the importation into the continental United States of fresh persimmon fruit (*Diospyros kaki*) from the Republic of South Africa. We solicited comments on the notice for 60 days ending on May 20, 2011. We received one comment by that date, from a State agriculture agency.

The commenter stated that the PRA identified nine quarantine pest species that could potentially accompany shipments of fresh persimmon fruit from the Republic of South Africa into the United States and stated that the potential introduction of these pests into the commenter's State would pose a risk to the State's agriculture. The commenter suggested allowing persimmon fruit from South Africa to be shipped to States where the pests do not exist and would be less likely to establish in order to evaluate the effectiveness of the recommended mitigation measures.

The PRA, which includes a qualitative, pathway-initiated pest risk assessment and a risk management document, not only identifies nine quarantine pests that could potentially accompany shipments of fresh persimmon fruit from the Republic of South Africa but also identifies mitigation measures that will be required for this commodity to be imported into any State in the continental United States. The mitigation measures for persimmons from South Africa have been previously evaluated and proven effective for other commodities, and we will continuously monitor the effectiveness of those mitigations with port-of-entry inspections. We do not consider it necessary to prohibit the importation of a commodity based on identification of quarantine pests that could potentially accompany consignments when proven mitigations are available for this risk
