**FOR FURTHER INFORMATION CONTACT:**

Complete copies of each request for collection of information may be obtained at no charge from Carlita Ballard, NHTSA 1200 New Jersey Ave. SE., Room W43-439, NVS-131, Washington, DC 20590. Ms. Ballard's telephone number is (202) 366-5222. Please identify the relevant collection of information by referring to its OMB Control Number.

**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995,

before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

- (i.) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- (ii.) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- (iii.) How to enhance the quality, utility and clarity of the information to be collected;

- (iv.) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g. permitting electronic submission of responses).

In compliance with these requirements, NHTSA asks for public comments on the following proposed collections of information:

**Title:** Insurer Reporting Requirement for 49 CFR part 544.

**OMB Control Number:** 2127-0547.

**Form Number:** None.

**Affected Public:** Business or other for profit.

**Requested Expiration Date of**

**Approval:** Three years from approval date.

**Abstract:** This information collection supports the Department's strategic goal of Economic Growth and Trade. The Motor Vehicle Theft Law Enforcement Act of 1984, added Title VI to the Motor Vehicle and Information Cost Savings Act (recodified as Chapter 331 of Title 49, United States Code) which mandated this information collection. The 1984 Theft Act was amended by the Anti Car Theft Act (ACTA) of 1992 (Pub. L. 102-519). NHTSA is authorized under 49 U.S.C. 33112, to collect this information. This information collection supports the agency's economic growth and trade goal through rulemaking implementation developed to help reduce the cost of vehicle ownership by reducing the cost of comprehensive insurance coverage. 49 U.S.C. 33112 requires certain passenger motor vehicle

insurance companies and rental/leasing companies to provide information to NHTSA on comprehensive insurance premiums, theft, recoveries and actions taken to address motor vehicle theft.

**Estimated Annual Burden:** Based on prior years' insurer compilation information, the agency estimates that the time to review and compile information for the reports has decreased and is expected to take approximately a total of 13,375 burden hours (12,950 man-hours for 25 insurance companies and 425 man-hours for 5 rental and leasing companies). Claim adjusters duties are those of normal business practice and do not assist in preparing or compiling information for the reports. There has also been a decrease in the number of companies required to report since the last reporting period. The number of annual reports range between 30 to 35 as a group (includes insurance companies and rental and leasing companies). More insurers are now submitting their reports electronically (approximately 70%). The agency has re-estimated the burden hours to be 13,375 total annual hours in lieu of 63,238 as the current OMB inventory. This is a decrease of 49,863 hours. Most recent year insurer compilation information estimates also reveal that it takes an average cost of \$47.00 per hour for clerical and technical staff to prepare the annual reports. Therefore, the agency estimates the total cost associated with the burden hours are \$628,625.

The burden hour for rental and leasing companies is significantly less than that for insurance companies because rental and leasing companies comply with fewer reporting requirements than the insurance companies. The reporting burden is based on insurers' salaries, clerical and technical expenses, and labor costs.

**Number of Respondents:** 30.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued on: November 18, 2011.

**SUPPLEMENTARY INFORMATION:** The Board, created by Congress in 1996 to take over many of the functions previously performed by the Interstate Commerce Commission, exercises broad authority over transportation by rail carriers, including regulation of railroad

rates and service (49 U.S.C. 10701-10747, 11101-11124), as well as the construction, acquisition, operation, and abandonment of rail lines (49 U.S.C. 10901-10907) and railroad line sales, consolidations, mergers, and common control arrangements (49 U.S.C. 10902, 11323-11327).

In 2007, the Board established RETAC as a Federal advisory committee consisting of a balanced cross-section of energy and rail industry stakeholders to provide independent, candid policy advice to the Board and to foster open, effective communication among the affected interests on issues such as rail performance, capacity constraints, infrastructure planning and development, and effective coordination among suppliers, carriers, and users of energy resources. RETAC operates subject to the Federal Advisory Committee Act.

RETAC's membership is balanced and representative of interested and affected parties, consisting of not less than: 5 representatives from the Class I railroads, 3 representatives from Class II and III railroads, 3 representatives from coal producers, 5 representatives from electric utilities (including at least 1 rural electric cooperative and 1 state- or municipally-owned utility), 4 representatives from biofuel refiners, processors, or distributors, or biofuel feedstock growers or providers, and 2 representatives from private car owners, car lessors, or car manufacturers. RETAC may also include up to 3 members with relevant experience but not necessarily affiliated with one of the aforementioned industries or sectors. Members are selected by the Chairman of the Board with the concurrence of a majority of the Board. The Chairman of the Board may invite representatives from the U.S. Departments of Agriculture, Energy and Transportation and the Federal Energy Regulatory Commission to serve on RETAC in advisory capacities as *ex officio* (non-voting) members, and the 3 members of the Board serve as *ex officio* members of the Committee as well.

RETAC meets at least twice per year. Meetings are generally held at the Board's headquarters in Washington, DC, but may be held in other locations. Members of RETAC serve without compensation and without reimbursement of travel expenses unless reimbursement of such expenses is authorized in advance by the Board's Managing Director. RETAC members appointed or reappointed after June 18, 2010, are prohibited from serving as federally registered lobbyists during their RETAC term.
