

designation recommendations for the 2008 Ozone NAAQS. These responses can be found on the EPA's Internet Web site at <http://www.epa.gov/ozonedesignations> and also in the public docket for ozone designations at Docket ID No. EPA-HQ-OAR-2008-0476. The CAA section 107(d) provides a process for designations that involves recommendations by states and tribes to the EPA and responses from the EPA to those parties, prior to the EPA promulgating final designations and boundaries. The EPA is not required under the CAA section 107(d) to seek public comment during the designation process, but is electing to do so for the 2008 Ozone NAAQS in order to gather additional information for the EPA to consider before making final designations. The EPA invites public comment on its responses to states and tribes during the 30-day comment period provided by this notice. Due to the statutory timeframe for promulgating designations set out in the CAA section 107(d), the EPA will not be able to consider any public comments submitted after January 19, 2012. This notice and opportunity for public comment does not affect any rights or obligations of any state, tribe or the EPA which might otherwise exist pursuant to the CAA section 107(d).

Please refer to the **ADDRESSES** section above in this document for specific instructions on submitting comments and locating relevant public documents.

In establishing nonattainment area boundaries, the EPA is required to identify the area that does not meet the 2008 Ozone NAAQS and any nearby area that is contributing to the area that does not meet that standard. We are particularly interested in receiving comments, supported by relevant information, if you believe that a specific geographic area that the EPA is proposing to identify as a nonattainment area should not be categorized by the CAA section 107(d) criteria as nonattainment, or if you believe that a specific area not proposed by the EPA to be identified as a nonattainment area should in fact be categorized as nonattainment using the CAA section 107(d) criteria. Please be as specific as possible in supporting your views.

- Describe any assumptions and provide any technical information and/or data that you used.

- Provide specific examples to illustrate your concerns, and suggest alternatives.

- Explain your views as clearly as possible.

- Make sure to submit your comments by the comment period

deadline identified in the **DATES** section above.

In addition to one complete version of the comment that includes information claimed as confidential business information, a copy of the comment that does not contain the information claimed as confidential business information must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. Send or deliver information identified as confidential business information only to the following address: Roberto Morales, U.S. EPA, Office of Air Quality Planning and Standards, Mail Code C404-02, Research Triangle Park, NC 27711, telephone (919) 541-0880, email at morales.roberto@epa.gov, Attention Docket ID No. EPA-HQ-OAR-2008-0476.

SUPPLEMENTARY INFORMATION:

I. Background

On January 4, 2011, Public Law 111–350 enacted a new codified version of Title 41 United States Code (U.S.C.), entitled “Public Contracts.” Title 41 U.S.C. citations were updated under DFARS Case 2011–D036 (76 FR 58137, September 20, 2011).

This case proposes to make further changes to the previous titles of Acts that have changed in titles 40 and 41 (comparable to the proposed Federal Acquisition Regulation (FAR) rule under FAR Case 2011–018), and other edits, as necessary.

II. Discussion and Analysis

DoD is updating the historical names of the Acts in the Defense Federal Acquisition Regulation Supplement (DFARS) (e.g., the “Service Contract Act of 1965” is now the “Service Contract Labor Standards statute”). A table providing the historical titles of the acts, the present statutory citation, and the new titles of the statutes is being proposed under FAR case 2011–018 for inclusion at FAR 1.110. That table will cover acts under both titles 40 and 41.

Although there were no substantive changes to the meaning of the statutes, there were some changes in terminology.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs

and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule does not change any policies or requirements. It just changes and updates references and terminology. Therefore, an initial regulatory flexibility analysis has not been performed. DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected by the rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (DFARS Case 2012–D003), in correspondence.

V. Paperwork Reduction Act

The rule does not impose any new information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

* * * * *

(b) *Service Contract Labor Standards statute coverage under the contract.* Contract installation support requirements, such as plant operation and installation services (*i.e.*, custodial, snow removal, etc.) are subject to the Service Contract Labor Standards. Apply Service Contract Labor Standards clauses and minimum wage and fringe benefit requirements to all contract service calls or orders for such maintenance and support work.

(c) *Construction Wage Rate Requirements statute coverage under the contract.* Contract construction, alteration, renovation, painting, and repair requirements (*i.e.*, roof shingling, building structural repair, paving repairs, etc.) are subject to the Construction Wage Rate Requirements statute. Apply Construction Wage Rate Requirements clauses and minimum wage requirements to all contract service calls or orders for construction, alteration, renovation, painting, or repairs to buildings or other works.

(d) *Repairs versus maintenance.* Some contract work may be characterized as either Construction Wage Rate Requirements painting/repairs or Service Contract Labor Standards

maintenance. For example, replacing broken windows, spot painting, or minor patching of a wall could be covered by either the Construction Wage Rate Requirements or the Service Contract Labor Standards. In those instances where a contract service call or order requires construction trade skills (*i.e.*, carpenter, plumber, painter, etc.), but it is unclear whether the work required is Service Contract Labor Standards maintenance or Construction Wage Rate Requirements painting/repairs, apply the following rules:

(1) Individual service calls or orders which will require a total of 32 or more work hours to perform shall be considered to be repair work subject to the Construction Wage Rate Requirements.

(2) Individual service calls or orders which will require less than 32 work hours to perform shall be considered to be maintenance subject to the Service Contract Labor Standards.

(3) Painting work of 200 square feet or more to be performed under an individual service call or order shall be considered to be subject to the Construction Wage Rate Requirements statute regardless of the total work hours required.

* * * * *

(f) Contracting officers may not avoid application of the Construction Wage Rate Requirements statute by splitting individual tasks between orders or contracts.
