

estimates that it would cost \$401,810 to abandon the Tate Island facilities.

Any questions regarding this application should be directed to Michele Willis, Manager, Regulatory & Compliance, CenterPoint Energy Gas Transmission Company, LLC, P.O. Box 21734, Shreveport, Louisiana 71151, or via telephone at (318) 429-3708.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters

will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions via the Internet in lieu of paper. See, 18 CFR 385.2001(a) (1) (iii) and the instructions on the Commission's Web site (www.ferc.gov) under the "e-Filing" link.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL12-55-000]

SIG Energy, LLLP v. California Independent System Operator Corporation; Notice of Complaint

Take notice that on April 4, 2012, pursuant to section 206 of the Federal Energy Regulatory Commission's (Commission) Rules and Practice and Procedure, 18 CFR 385.206 and sections 206 and 306 of the Federal Power Act, 16 U.S.C. 824(e) and 825(e), SIG Energy, LLLP (Complainant) filed a formal complaint against the California Independent System Operator Corporation (Respondent) alleging that the Respondent violated its open access transmission tariff (OATT) and the Respondent's determination of the settlement price for congestion revenue rights contracts at certain pricing nodes on certain dates in August 2011 resulted in unjust and unreasonable rates, in violation of the filed rate doctrine and the Respondent's OATT and related Business Practice Manuals.

The Complainant certifies that public version copies of the complaint were served on the contacts for the Respondent as listed on the Commission's list of Corporate Officials and on the California Public Utilities Commission.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the

appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. Eastern Time on April 24, 2012.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL12-56-000]

Energy Spectrum, Inc. and Riverbay Corporation v. New York Independent System Operator; Notice of Complaint

Take notice that on April 12, 2012, pursuant to section 205 of the Federal Power Act and Rule 206 of the Rules of Practice and Procedure of the Federal Energy Regulatory Commission (Commission), 18 CFR 385.206, Energy Spectrum, Inc. and Riverbay Corporation (Complainants) collectively filed a formal complaint against New York Independent System Operator (Respondent or NYISO) alleging that the Respondent violated the Federal Power Act, the Commission's orders and policies, and the NYISO's Market

Administration and Control Area Services Tariff as a result of NYISO's issuance of Technical Bulletin No. 217 on April 6, 2012. The Complainants contend that the technical bulletin prohibits participating sellers from including energy consumed from "behind the meter" generation eligible to participate in the NYISO's Special Case Resources Program.

The Complaints certify that copies of the complaint were served on the contacts for NYISO as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission,

888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF12-6-000]

Columbia Gas Transmission, LLC; Notice of Intent to Prepare an Environmental Assessment for the Planned Line MB Loop Extension Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meeting

The staff of the Federal Energy Regulatory Commission (FERC or

Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Line MB Loop¹ Extension (Line MB) involving construction and operation of facilities by Columbia Gas Transmission, LLC (Columbia) in Baltimore and Harford Counties, Maryland. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine what issues they need to evaluate in the EA. Please note that the scoping period will close on May 16, 2012.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this planned project and encourage them to comment on their areas of concern.

Comments may be submitted in written form or verbally. Further details on how to submit written comments are provided in the Public Participation section of this notice. In lieu of or in addition to sending written comments, we² invite you to attend the public scoping meetings scheduled as follows:

Date and Time	Location
May 8, 2012, 7 p.m. EDT	Oregon Ridge Lodge, 13401 Beaver Dam Road, Cockeysville, MD 21030.
May 9, 2012, 7 p.m. EDT	Youth's Benefit Elementary School Cafeteria, 1901 Fallston Road, Fallston, MD 21047.

The public meetings are designed to provide you with more detailed information and another opportunity to offer your comments on the proposed project. Columbia representatives will be present one hour before each meeting to describe their proposal, present maps, and answer questions. Interested groups and individuals are encouraged to attend the meetings and to present comments on the issues they believe should be addressed in the EA. A transcript of each meeting will be made so that your comments will be accurately recorded.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the planned facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if Line MB is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would

be determined in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (www.ferc.gov). This fact sheet addresses a number of typically-asked questions, including the use of eminent domain and how to participate in the Commission's proceedings.

Summary of the Planned Project

Columbia plans to construct about 21.3 miles of 26-inch-diameter pipeline

¹ A pipeline loop is a segment of pipe constructed parallel to an existing pipeline to increase capacity.

² "We", "us", and "our" refer to the environmental staff of the Office of Energy Projects (OEP).
