The proposed Consent Decree resolves violations alleged in the Complaint filed against the Municipality of Arecibo ("Arecibo") which generally alleges that: (1) Arecibo failed to timely obtain coverage under the Small MS4 General Permit; (2) Arecibo discharged storm water into waters of the United States without a permit until receiving coverage under the Small MS4 General Permit; (3) Arecibo violates its Small MS4 General Permit by discharging sewage and sewage sludge not permitted by its permit; failing to develop, implement and enforce a program to detect and eliminate illicit discharges or to take all reasonable steps to minimize or prevent any discharges in violation of its permit; and failing to properly operate and maintain its system; and (4) discharges untreated sewage from its MS4 onto public and private property and into residential dwellings and other buildings where the public has or may have come into contact with the sewage.

The proposed Consent Decree addresses the violations identified above by requiring Arecibo to conduct the following: Implement a Storm Water Management Plan (SWMP); provide training to the Municipality's employees who are responsible for complying with the terms of the Consent Decree and annual training for all employees that work at the pump station; comply with the Operation and Preventive Maintenance Plan recently approved by EPA; construct a New Pump Station and three storm water retention ponds; implement interim pump station operation procedures until the New Pump Station is in operation (including cleaning, disinfection, disposal and sampling); and completion of required closed circuit television studies of various watershed areas in the Municipality and repair and/or replace sewers as necessary. The injunctive relief to be completed under the Consent Decree is estimated to cost approximately \$56 million. Notice of Lodging of Modification To Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

Notice is hereby given that on June 1, 2012, a proposed Amendment to the Consent Decree in *U.S. v. Allied Signal Inc., et al.*, 96 Civ. 1513 (RPP) was lodged with the United States District Court for the Southern District of New York.

The Original Consent Decree that was entered in 1996 involves the Cortese Landfill Superfund Site, located in the Town of Tusten, Sullivan County, New York. The Amendment to the Consent Decree modifies the Original Consent Decree to require implementation of a modified remedy that the United States Environmental Protection Agency has selected for the Site.

In the course of the performance of the original remedy, two additional sources of contamination were discovered beneath a former drum disposal areas at the Site, which required the selection of an additional response action to address this newly identified source-area contamination. Accordingly, EPA modified the original remedy to provide for air sparging/soil vapor extraction and amendment addition (*i.e.*, injection of soil amendment into the subsurface), subsequent application of in-situ chemical oxidation, if necessary, to address the sources of contamination beneath the former drum disposal areas, and monitored natural attenuation to address the groundwater downgradient from the landfill perimeter.

The Department of Justice will receive for a period of 30 days from the date of this publication comments relating to the Amendment to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either emailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O.
