

inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 69 hours per response. "Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of printing, coating and dyeing of fabrics and other textiles.

Estimated Number of Respondents: 143.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 21,271.

Estimated Total Annual Cost: \$2,044,793, which includes \$2,038,122 in labor costs, \$2,953 in capital/startup costs, and \$3,718 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is an adjustment increase in the total estimated burden hours and costs for both the respondents and the Agency as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The increase in the burden and cost reflects a growth in the respondent universe since the last ICR renewal and an increase in labor rates. This ICR uses updated labor rates in estimating the costs for all labor categories.

FEDERAL COMMUNICATIONS COMMISSION

Information Collection(s) Being Submitted for Review and Approval to the Office of Management and Budget (OMB)

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burden and as required by the Paperwork Reduction

Act (PRA) of 1995, the Federal Communications Commission invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimates; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before August 6, 2012. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Nicholas A. Fraser, Office of Management and Budget (OMB), via fax at 202-395-5167 or via Internet at Nicholas.A.Fraser@omb.eop.gov and to Judith B. Herman, Federal Communications Commission, via the Internet at Judith-b.herman@fcc.gov. To submit your PRA comments by email send them to: PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Judith B. Herman, Office of Managing Director, FCC, at 202-418-0214.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0228.

Title: Section 80.59, Compulsory Ship Inspections and Ship Inspection Certificates.

Form Numbers: FCC Forms 806, 824, 827 and 829.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions and state, local or tribal government.

Number of Respondents: 1,310 respondents; 1,310 responses.

Estimated Time per Response: .084 hours (5 minutes) up to 4 hours per response.

Frequency of Response: On occasion, annual and every five year reporting requirements, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. Sections 4, 303, 309, 332 and 362 of the Communications Act of 1934, as amended.

Total Annual Burden: 5,445 hours.

Total Annual Cost: N/A.

Privacy Impact Assessment: N/A.

Needs and Uses: The Commission is seeking OMB approval for this revised collection. The Commission will submit this information collection to the OMB after publication of this 30 day notice.

The requirements contained in 47 CFR 80.59 of the Commission's rules are necessary to implement the provisions of Section 362(b) of the Communications Act of 1934, as amended, which require the Commission to inspect the radio installation of large cargo ships and certain passenger ships at least once a year to ensure that the radio installation is in compliance with the requirements of the Communications Act.

Further, section 80.59(d) states that the Commission may, upon a finding that the public interest would be served, grant a waiver of the annual inspection required by section 362(b) of the Communications Act of 1934, for a period of not more than 90 days for the sole purpose of enabling the United States vessel to complete its voyage and proceed to a port in the United States where an inspection can be held. An information application must be submitted by the ship's owner, operator or authorized agent. The application must be submitted to the Commission's District Director or Resident Agent in charge of the FCC office nearest the port of arrival at least three days before the ship's arrival. The application must provide specific information that is in rule section 80.59.

Additionally, the Communications Act requires the inspection of small passenger ships at least once every five years.

The Safety Convention (to which the United States is a signatory) also requires an annual inspection.

The Commission allows FCC-licensed technicians to conduct these inspections. FCC-licensed technicians certify that the ship has passed an inspection and issue a safety certificate. These safety certificates, FCC Forms

806, 824, 827 and 829 (approved by the OMB under OMB Control Number 3060-0835) indicate that the vessel complies with the Communications Act of 1934, as amended and the Safety Convention. These technicians are required to provide a summary of the results of the inspection in the ship's log that the inspection was satisfactory.

Inspection certificates issued in accordance with the Safety Convention must be posted in a prominent and accessible place on the ship (third party disclosure requirement).

Finally, the Commission seeks revision of this OMB control number to merge this information collection with OMB Control Number 3060-0835. We will retain OMB Control Number 3060-0228 as the active number in OMB's system and upon OMB approval will voluntarily discontinue OMB Control Number 3060-0835.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of Managing Director.
