

forth in Appendix F attached to the Consent Decree.

The proposed Modification amends the Consent Decree by expanding the scope and extending the deadline for completion of the mid-term remedial measures as set forth in Paragraph 8. b. and Appendix D of the Consent Decree. The original Consent Decree requires 148 mid-term remedial measures to be completed by June 30, 2012. Pursuant to the proposed Modification 232 mid-term remedial projects are required to be completed under the following schedule: completion of 14 projects by June 30, 2012; completion of 37 projects by October 31, 2012; completion of 102 projects by December 31, 2012; completion of 72 projects by March 31, 2013; and completion of the remaining 7 projects by June 30, 2013. The proposed Modification also calls for increased reporting by PRASA on the status of the mid-term remedial measures, as well as four meetings between EPA and PRASA between October 2012 and May 2013 to discuss the progress of the remedial measures.

In addition, the proposed Modification revises Appendix F that sets forth interim limits that apply for certain WTPs. Supplemental sampling taken after entry of the Consent Decree indicates that revisions to some of the interim limits, as originally listed in Appendix F, is appropriate, and the proposed Modification replaces original Appendix F with a revised Appendix F setting forth the modified interim limits for certain WTPs.
