

units for a total capacity of 5 MW; (2) a new 75-foot-long by 36-foot-wide by 24- to 39-foot-high reinforced concrete draft tube structure; (3) a new transformer and switchyard; (4) a new 850-foot-long, 69-kilovolt transmission line; and (5) appurtenant facilities. The project would have an estimated annual generation of 38.5 gigawatt-hours.

Applicant Contact: Mr. Michael Skelly, 726 Eldridge Avenue, Collingswood, NJ 08107-1708; (856) 240-0707.

FERC Contact: Tyrone A. Williams, (202) 502-6331.

Deadline for filing comments, motions to intervene, and competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, (202) 502-8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

More information about this project, including a copy of the application can be viewed or printed on the "eLibrary" link of Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-14391) in the docket number field to access the document. For assistance, contact FERC Online Support.

Dated: July 10, 2012.

Kimberly D. Bose,
Secretary.

[Project No. 14392-000]

American River Power VI, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On April 23, 2012, the American River Power VI, LLC filed an application for a preliminary permit under section 4(f) of the Federal Power Act proposing to study the feasibility of the proposed La Grange Hydroelectric Water Power Project No. 14392, to be located at the existing La Grange Dam on the Illinois River, near the city of Beardstown in Cass County, Illinois. The La Grange Dam is owned by the United States government and operated by the United States Army Corps of Engineers.

The proposed project would consist of: (1) One new 80-foot-long by 50-foot-wide by 28-foot-high reinforced concrete powerhouse, containing two 5-megawatt (MW) turbines for a total capacity of 10 MW; (2) a new 50-foot-long by 30-foot-wide by 12-foot-high reinforced concrete draft tube structure; (3) a new transformer and switchyard; (4) a new 12,540-foot-long, 69-kilovolt transmission line; and (5) appurtenant facilities. The project would have an estimated annual generation of 76.2 gigawatt-hours.

Applicant Contact: Mr. Michael Skelly, 726 Eldridge Avenue, Collingswood, NJ 08107-1708; (856) 240-0707.

ERC Contact: Tyrone A. Williams, (202) 502-6331.

[Project No. 14389-000]

American River Power VII, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On April 18, 2012, American River Power VII, LLC filed an application for a preliminary permit under section 4(f) of the Federal Power Act proposing to study the feasibility of the proposed Lower Appleton Dam Hydroelectric Water Power Project No. 14389, to be located at the existing Lower Appleton Dam on the Fox River, near the city of Appleton in Outagamie County, Wisconsin. The Lower Appleton Dam is owned by the United States government and operated by the United States Army Corps of Engineers.

The proposed project would consist of: (1) One new 80-foot-long by 30-foot-wide by 20-foot-high reinforced concrete powerhouse, containing two 2.5-megawatt (MW) turbine/generator units for a total capacity of 5 MW; (2) a new 50-foot-long by 18-foot-wide by 9-foot-high reinforced concrete draft tube structure; (3) a new transformer and switchyard; (4) a new 1,200-foot-long, 36.7-kilovolt transmission line; and (5) appurtenant facilities. The project would have an estimated annual generation of 38.0 gigawatt-hours.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-ORD-2012-0523; FRL-9697-4]

Integrated Risk Information System (IRIS); Announcement of Availability of Literature Searches for IRIS Assessments

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability of a literature search for benzo(a)pyrene; request for information.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is announcing the availability of a literature search for benzo(a)pyrene (CASRN 50-32-8). EPA is also requesting scientific information on health effects that may result from exposure to this chemical substance. EPA's IRIS is a human health assessment program that evaluates quantitative and qualitative risk information on effects that may result from exposure to specific chemical substances found in the environment.

DATES: EPA will accept information related to the specific substance included herein as well as any other compound being assessed by the IRIS Program. Please submit any information in accordance with the instructions provided below.

ADDRESSES: Please submit relevant scientific information identified by docket ID number EPA-HQ-ORD-2012-0523, online at www.regulations.gov (EPA's preferred method); by email to Docket_ORD@epa.gov; mailed to Office of Environmental Information (OEI) Docket (Mail Code: 28221T), U.S. Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; or by hand delivery or courier to EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC, between 8:30 a.m. and 4:30 p.m. Monday through Friday, excluding legal holidays. Information on a disk or CD-ROM should be formatted in Word or as an ASCII file, avoiding the use of special characters and any form of encryption, and may be mailed to the mailing address above.

FOR FURTHER INFORMATION CONTACT: For information on the IRIS program, contact Joseph DeSantis, Senior Advisor for Logistical Support, IRIS Division, National Center for Environmental Assessment, (mail code: 8601P), Office of Research and Development, U.S. Environmental Protection Agency, Washington, DC 20460; telephone: (703) 347-8616, facsimile: (703) 347-8696; or email: FRNQuestions@epa.gov.

For general questions about access to IRIS, or the content of IRIS, please call the IRIS Hotline at (202) 566-1676 or send electronic mail inquiries to hotline.iris@epa.gov.

SUPPLEMENTARY INFORMATION:

Background

EPA's IRIS is a human health assessment program that evaluates quantitative and qualitative risk information on effects that may result from exposure to specific chemical substances found in the environment. Through the IRIS Program, EPA

provides the highest quality science-based human health assessments to support the Agency's regulatory activities. The IRIS database contains information for more than 540 chemical substances that can be used to support the first two steps (hazard identification and dose-response evaluation) of the risk assessment process. When supported by available data, IRIS provides oral reference doses (RfDs) and inhalation reference concentrations (RfCs) for chronic noncancer health effects as well as assessments of potential carcinogenic effects resulting from chronic exposure. Combined with specific exposure information, government and private entities use IRIS to help characterize public health risks of chemical substances in a site-specific situation and thereby support risk management decisions designed to protect public health.

This data call-in is a step in the IRIS process. As literature searches are completed, the results will be posted on the IRIS Web site (<http://www.epa.gov/iris>). The public is invited to review the literature search results and submit additional information to EPA.

Request for Public Involvement in IRIS Assessments

EPA is soliciting public involvement in assessments on the IRIS agenda. While EPA conducts a thorough literature search for each chemical substance, there may be unpublished studies or other primary technical sources that are not available through the open literature. EPA would appreciate receiving scientific information from the public during the information gathering stage for the assessment listed in this notice or any other assessments on the IRIS agenda. Interested persons may provide scientific analyses, studies, and other pertinent scientific information. While EPA is primarily soliciting information on new assessments, the public may submit information on any chemical substance at any time.

EPA is announcing the availability of an additional literature search on the IRIS Web site (www.epa.gov/iris). The public is invited to review the literature search results and submit additional information to EPA. A literature search is now available for benzo(a)pyrene (CASRN 50-32-8) at www.epa.gov/iris under "IRIS Agenda and Literature Searches." Additional literature searches will be posted as they are completed. Availability will be announced in the **Federal Register**. Instructions on how to submit information are provided below under General Information.
