Federal Register

Vol. 77, No. 141

Monday, July 23, 2012

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## DEPARTMENT OF AGRICULTURE

### Submission for OMB Review; Comment Request

July 18, 2012.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), [OIRA\\_Submission@OMB.EOP.GOV](mailto:OIRA_Submission@OMB.EOP.GOV) or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

### Food and Nutrition Service

*Title:* SuperTracker Information Collection for Registration, Login, and Food Intake and Physical Activity Assessment Information.

*OMB Control Number:* 0584–0535.

*Summary of Collection:* The U.S. Department of Agriculture (USDA), Center for Nutrition Policy and Promotion (CNPP) supports and promotes the health of all Americans by producing and promoting up-to-date science-based dietary guidance, including the Dietary Guidelines for Americans 2010 and MyPlate communication initiative. The Dietary Guidelines for Americans are the cornerstone of Federal nutrition policy for the general public, and they provide sound scientific advice for healthy Americans age 2 years and older about food choices that promote health and may prevent disease. The authority to collect the information can be found under Subtitle D of the National Agriculture Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3171–3175) and 7 CFR 2.19(a)(3).

*Need and Use of the Information:* SuperTracker can assist the public in making diet and physical activity choices. Users voluntarily go to the [ChooseMyPlate.gov](http://ChooseMyPlate.gov) Web site to submit information. The information obtained from users is stored in a user account, which is maintained by USDA information technology (IT) staff. If the information is not collected, users will not be able to assess individual food intake and physical activity status.

*Description of Respondents:* Individual or households.

*Number of Respondents:* 3,600,000.

*Frequency of Responses:* Reporting: Monthly.

*Total Burden Hours:* 3,767,898.

**Ruth Brown,**

*Departmental Information Collection Clearance Officer.*

## DEPARTMENT OF AGRICULTURE

### Submission for OMB Review; Comment Request

July 18, 2012.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), [OIRA\\_Submission@OMB.EOP.GOV](mailto:OIRA_Submission@OMB.EOP.GOV) or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

### Animal and Plant Health Inspection Service

*Title:* PPQ Form 816; Contract Pilot and Aircraft Acceptance.

*OMB Control Number:* 0579–0298.

*Summary of Collection:* The Plant Protection Act (7 U.S.C. 7701 *et seq.*)

authorizes the Secretary of Agriculture, either independently or in cooperation with States, to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests and noxious weeds that are new to or not widely distributed within the United States. This authority has been delegated to the Administrator, Animal and Plant Health Inspection Service (APHIS). APHIS carries out this program primarily by treating infested lands by aerial spraying of pesticides from aircraft.

*Need and Use of the Information:* Contract Pilot and Aircraft Acceptance Form (PPQ-816) is used by the Plant Protection and Quarantine personnel who are involved with contracts for aerial application services for emergency pest outbreaks. The form is used to document that the pilot and aircraft meet contract specifications. If APHIS did not collect this information or collected it less frequently, APHIS would not be able to verify if APHIS contracts for aerial application services met specifications.

*Description of Respondents:* Individuals or households.

*Number of Respondents:* 15.

*Frequency of Responses:* Reporting: On occasion.

*Total Burden Hours:* 4.

**Ruth Brown,**

*Departmental Information Collection Clearance Officer.*

## DEPARTMENT OF AGRICULTURE

### Forest Service

#### Lolo National Forest; Montana; Center Horse Landscape Restoration EIS

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of intent to prepare an environmental impact statement.

**SUMMARY:** The Forest Service will prepare an environmental impact statement (EIS) on a proposal to implement restoration activities, including vegetation management, road and trail management, and watershed improvement activities within the Monture, Dunham, Shanley, Cottonwood and Spring Creek drainages, Lolo National Forest, Seeley Lake Ranger District, Powell County, Montana. This EIS will tier to the Lolo National Forest Plan Final EIS (April 1986).

**DATES:** Comments concerning the scope of the analysis must be received by 30 days from date of publication of this

notice in the **Federal Register**. The draft environmental impact statement is expected May 2013 and the final environmental impact statement is expected March 2014.

**ADDRESSES:** Send written comments to: Center Horse Landscape Restoration Project Leader, USDA Forest Service, 3583 Highway 83, Seeley Lake, MT 59868. Comments may also be sent via email to [comments-northern-lolo-seeley-lake@fs.fed.us](mailto:comments-northern-lolo-seeley-lake@fs.fed.us) or via facsimile to 406-677-3902.

**FOR FURTHER INFORMATION CONTACT:** Tami Paulsen, Project Leader, (406) 329-3731.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

#### SUPPLEMENTARY INFORMATION:

##### Purpose and Need for Action

The Center Horse Landscape Restoration Project is being designed to: (1) Improve/restore forest composition, spatial arrangement and structure, (2) restore fire adapted ecosystems, (3) improve water quality, restore or enhance fish and wildlife habitat, and conserve and improve soil resources, and (4) right size the existing transportation network to meet public and administrative needs while at the same time eliminating unneeded or environmentally impactful roads and trails.

##### Proposed Action

The Center Horse Landscape Restoration project area of approximately 61,300 acres is located east of Seeley Lake, Montana within T16N, R11W; T16N, R12W; T16N, R13W; T16N, R14W; T17N, R12W; T17N, R13W, T17N, R14W, P.M.M. Within this area, the Lolo National Forest proposes the following activities to achieve the purpose and need for the project: (1) Timber harvest and prescribed burning on approximately 5000 acres; (2) Commercial/non-commercial mechanical vegetation treatments and prescribed burning on about 1500 acres; (3) Precommercial thinning and prescribed burning on about 1325 acres; (4) Ecosystem maintenance burning preceded by hand slashing on approximately 8650 acres; (5) whitebark pine restoration on about 70 acres; (6) temporary road construction (about 5 miles); (7) re-route 5 road segments to improve fish habitat; (8) add existing roads to system (about 23.5 miles), add existing roads to system and store (about 8 miles), construct

system road for re-route (about 2.5 miles), convert road to trail (about 10 miles), road decommissioning (about 160 miles), reconstruct road and add to system for alternate route (about 2.5 miles), reconstruct system road for alternate route (about 0.5 miles), store existing system road (about 7 miles), and change travel management (about 0.5 miles); (9) development and rehabilitation work at two existing gravel pits; (10) culvert replacements/removals; (11) evaluate 40 miles of user created non-system trails for inclusion into trail system inventory; (12) weed treatment, (13) soil resource improvement projects including weed treatment, landing and skid trail rehabilitation, and shrub and tree planting.

If, after the completion of the environmental analysis and review of public comments the Responsible Official decides to select an action alternative, implementation could begin in 2015 and would continue for several years.

##### Responsible Official

Lolo National Forest Supervisor.

##### Nature of Decision To Be Made

The Forest Supervisor will decide whether to implement the proposed action, take an alternative action that meets the purpose and need, or take no action. A site-specific amendment to the Lolo National Forest Plan is not anticipated.

##### Preliminary Issues

Preliminary issues include: (1) A significant portion of this analysis area is in the Bear-Marshall-Scapegoat-Swan Inventoried Roadless Area. While only noncommercial treatments (i.e., ecosystem maintenance burning with incidental slashing (about 5,220 acres) and road decommissioning (about 3.2 miles)) are proposed in this IRA. Treatments in IRAs can be controversial; (2) Proposed activities could affect wildlife and wildlife habitat. Portions of the analysis area are within Lynx Analysis Units and the Northern Continental Divide Ecosystem Grizzly Bear Recovery Area; and, (3) The analysis area includes new acquisitions which need considerable restoration, particularly in terms of current numbers of roads, amount of invasive species, and altered forest conditions. They also present challenges due to limited availability of survey and inventory data and possible access limitations.

##### Permits or Licenses Required

Montana Stream Preservation Action—124 permit for instream work.
