*Abstract:* The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, disposition, and prices. The Agricultural Labor Survey provides quarterly statistics on the number of agricultural workers, hours worked, and wage rates. *Estimate of Burden:* This information collection comprises three individual surveys, two of which are conducted semi-annually and one which is conducted annually, for an estimated total be around 48,000 responses. The public reporting burden for this information collection is estimated to average 5 to 15 minutes per response.

*Respondents:* Farms and businesses.

*Estimated Number of Respondents:* 11,600.

*Estimated Total Annual Burden on Respondents:* 6,600 hours.

Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS Clearance Officer, at (202) 690-2388.

*Comments:* Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.
