

waiver demonstration projects in each of Fiscal Years 2012, 2013 and 2014. These demonstration waiver projects involve the waiver of certain requirements of title IV–E and IV–B. These projects do not provide additional funding to carry out new services; rather they allow more flexible uses of Federal funds in order to test new approaches to service delivery or financing structures in an effort to improve outcomes for children and families involved in the child welfare system. We encourage title IV–E agencies wishing to apply for approval of a waiver demonstration project to submit a letter of intent followed by a full proposal at a later date. For title IV–E agencies that choose

to submit a letter of intent, the letter of intent should indicate the title IV–E agency's intent to submit a proposal, and briefly describe the demonstration project, including the nature of the intervention the agency wishes to implement, the target population the agency wishes to serve, the reasons for selecting the proposed project and the evaluation design that the agency is considering. The full proposal must describe the project in extensive detail including the goals identified in statute that the project is intended to accomplish, the geographic areas in which the proposed project will be conducted, the service interventions to be implemented, the impact

intervention is expected to have on outcomes related to safety, permanency, well-being, how service provision will change for children and families under the waiver demonstration, a statement of program requirements for waivers needed to conduct the project, an estimate of the projected costs or savings of the proposed project, a description of the proposed evaluation design and an accounting of any other sources of funding that have been used to provide the services that the agency now proposes to address under a waiver demonstration.
