Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *”. To comply with the public consultation process, on June 6, 2012, we published a **Federal Register** notice (77 FR 33479) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 254.9 provides the OMB control number for the information collection requirements imposed by the 30 CFR 254 regulations. The regulation also informs the public that they may comment at any time on the collections of information and provides the address to which they should send comments. We have received no comments in response to these efforts.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM), Barstow Field Office, Barstow, California, intends to prepare an amendment to the 1980 California Desert Conservation Area (CDCA) Plan with an associated Environmental Assessment (EA) to identify an 80-acre parcel of public land for possible direct sale. With this notice, the BLM is announcing the beginning of the scoping process to solicit public comments and identify issues.

In order to be included in the EA, all comments must be received prior to the close of the 30-day scoping period or 15 days after the last public meeting, whichever is later. The BLM will provide additional opportunities for public participation upon publication of the EA as appropriate.

SUPPLEMENTARY INFORMATION: This document provides notice that the BLM Barstow Field Office, Barstow, California, intends to prepare a plan amendment with an associated EA for the 1980 CDCA Plan, announces the beginning of the scoping process, and seeks public input on issues and planning criteria. The planning area is located in San Bernardino County, California, and encompasses approximately 80 acres of public land that has been identified for possible direct sale. The BLM received a request from OMYA, Inc., to purchase the planning area, by direct sale, under the authority of Section 203 of FLPMA (43 U.S.C. 1713). However, the public land described above is currently not available for sale under the 1980 CDCA Plan as amended, and a plan amendment is required to process a direct sale. This plan amendment will be limited to an analysis of whether the public land described above meets Section 203 sales criteria of FLPMA. The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the planning process. Preliminary issues for the plan amendment area have been identified by BLM personnel. The issues include: Mineral resources, special status species, and cultural resources. Preliminary planning criteria include:

1. Compliance with FLPMA, NEPA, and all other applicable laws;
2. Coordination with local and county governments; and
3. Government-to-government consultation with federally recognized tribes.

You may submit comments on issues and planning criteria in writing to the BLM at any public scoping meeting, or you may submit them to the BLM using one of the methods listed in the **ADDRESSES** section above.
