

Action—Proposed Early Restoration Projects. Under the No Action alternative, the trustees would not implement early restoration projects as described in this Draft ERP/ER. Rather, the No Action approach would result in delaying protection and improvement of important nesting habitats injured by the oil spill.

Under the Proposed Action, the Trustees are considering two projects that meet the selection criteria, which are also described in the Draft ERP/ER.

Proposed Action—Proposed Early Restoration Projects

The proposed restoration projects are intended to protect and enhance beach nesting habitats used by birds and sea turtles by, among other things, protecting bird nesting habitat with symbolic fencing and signs and reducing the presence of harmful lighting on certain beaches as described in the plan. The proposed projects are: (1) Comprehensive Program for Enhanced Management of Avian Breeding Habitat Injured by Response in the Florida Panhandle, Alabama, and Mississippi; and (2) Improving Habitat Injured by Spill Response: Restoring the Night Sky. Each of these projects will benefit coastal nesting habitats injured by response to the *Deepwater Horizon* oil spill.

Next Step

After the public comment period ends, the Trustees will analyze and address the comments and will consider all input received before an ERP/ER is finalized. As described above, a public meeting is scheduled to facilitate the public review and comment process. During public review and subsequent revision of the ERP/ER, negotiations with BP will be completed and approved projects will proceed to implementation, pending compliance with all applicable state and federal laws.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of the Interior (DOI) is creating the Donations Program Files system of records. The purpose of this system is to assist the Department of the Interior in managing the Donations Program and facilitating the acceptance and solicitation of donations of money, real property, personal property, services, or other gifts by members of the public and organizations. The system will be effective as proposed at the end of the comment period (the comment period will end 40 days after the publication of this notice in the *Federal Register*), unless comments are received that would require a contrary determination. DOI will publish a revised notice if changes are made based upon a review of the comments received.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practices in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals' personal information. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. As a matter of policy, DOI extends administrative Privacy Act protections to all individuals. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act Regulations, 43 CFR part 2.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such records within the agency. Below is the description of the Donations Program Files system of records.

In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

David Alspach,
OS/NBC Privacy Act Officer.
