

nor is it likely to become in danger of extinction in the foreseeable future.

These overall results of our status review portray a species that still occupies its historical range, although at lower and declining abundance, but with both biological characteristics and, potentially, management measures that help maintain the population above the viability threshold. Our information does not indicate that this status is likely to change within the foreseeable future.

Based on these results, we conclude that the bumphead parrotfish is not currently in danger of extinction throughout its range or throughout SPOIR, and is not likely to become in danger of extinction within the foreseeable future. Accordingly, the species does not meet the definition of threatened or endangered. Based on these findings, our listing determination is that the bumphead parrotfish does not warrant listing as threatened or endangered at this time.

and cobia fisheries will consist of a series of workshops and supplemental webinars. This notice is for a webinar associated with the Assessment portion of the SEDAR process.

DATES: The SEDAR 28 Assessment Workshop Webinar will be held on November 26, 2012, from 1 p.m. until 5 p.m. EDT. The established time may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from, or completed prior to, the times established by this notice.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico Fishery Management Council (GMFMC), in conjunction with NOAA Fisheries, has implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process, including a workshop and webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the GMFMC, NOAA Fisheries Southeast Regional Office, and the NOAA Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen,

environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

SUPPLEMENTARY INFORMATION:

I. Background on Proposed Extension of Information Collection Activities

A. Overview

Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank Act"), Public Law 111-203, 124 Stat. 1376 (2010) amended the CEA to establish a new statutory framework for swaps. To implement the Dodd-Frank Act, the Commission has promulgated, or proposed, rules and regulations pursuant to the various new provisions of the CEA, including those specifically applicable to swap dealers ("SDs") and major swap participants ("MSPs"). The Dodd-Frank Act requires all swap dealers and major swap participants to be registered with the Commission. It contains definitions of "swap," "swap dealer" and "major swap participant" but directs the Commission to adopt regulations that further define those terms. On July 23, 2012, the Commission's final regulations further defining the terms "swap dealer" and "major swap participant" became effective. On October 12, 2012, the Commission's final regulations further defining the term "swap" and "security-based swap" in sections 712(d) and 721(c) of the Dodd-Frank Act (the "Products Definitions Final Rule") became effective.³ The SD and MSP registration
