General Description of Reports

This information collection is mandatory: 12 U.S.C. 321, 324, and 602 (Board); 12 U.S.C. 161 and 602 (OCC); and 12 U.S.C. 1828 (FDIC). This information collection is given confidential treatment (5 U.S.C. 552(b)(8)).

Abstract

The FFIEC 030 contains asset and liability information for foreign branches of insured U.S. banks and is required for regulatory and supervisory purposes. The information is used by the agencies to analyze the foreign operations of U.S. banks. All foreign branches of U.S. banks with total assets of \$50 million or more regardless of charter type file this report with the appropriate Federal Reserve District Bank. The Federal Reserve collects this information on behalf of the U.S. bank's primary federal bank regulatory agency. The FFIEC 030S contains five data items that branches with total assets between \$50 million and \$250 million file on an annual basis in lieu of the FFIEC 030 reporting form.

Current Actions

On July 21, 2011, supervisory responsibility for federal and state-chartered savings associations was transferred from the former Office of Thrift Supervision to the OCC and the FDIC, respectively, pursuant to Title III of the Dodd-Frank Wall Street Reform and Consumer Protection Act, Public Law 111–203. Accordingly, the Foreign Branch Report of Condition would be applicable to foreign branches, if any, of insured U.S. savings associations beginning as of the December 31, 2012, report date. No other changes are proposed to the FFIEC 030 or FFIEC 030S reporting forms or instructions in connection with the agencies' request for approval to extend for three years, with revision, this collection of information. The agencies collectively received one comment on their July 30, 2012, **Federal Register** initial notice that

supported the collection of the Foreign Branch Report of Condition.

Request for Comment

Public comment is requested on all aspects of this joint notice. Comments are invited on:

a. Whether the information collection is necessary for the proper performance of the agencies' functions, including whether the information has practical utility;

b. The accuracy of the agencies' estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of the information collections on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or start up costs and costs of operation, maintenance, and purchase of services to provide the requested information.

Comments submitted in response to this notice will be shared among the agencies. All comments will become a matter of public record.
