DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Current Population Survey, Annual Social and Economic Supplement.

OMB Control Number: 0607-0354.

Form Number(s): CPS-580 (ASEC), CPS-580 (ASEC)SP, CPS-676, CPS-676(SP).

Type of Request: Revision of a currently approved collection.

Burden Hours: 36,400.

Number of Respondents: 78,000.

Average Hours per Response: 28 minutes.

Needs and Uses: The purpose of this request for review is to obtain clearance for the Annual Social and Economic Supplement (ASEC), which we will conduct in conjunction with the February, March, and April Current Population Survey (CPS). Congressional passage of the State Children's Health Insurance Program, or Title XXI, led to a mandate from Congress in 1999 that the sample size for the CPS, and specifically the Annual Social and Economic Supplement (ASEC), be increased to a level whereby more reliable estimates can be derived for the number of individuals participating in this program at the state level. By administering the ASEC in February, March, and April, we have been able to achieve this goal.

The U.S. Census Bureau has conducted this supplement annually for over 60 years. The Census Bureau and the Bureau of Labor Statistics (BLS) sponsor this supplement.

The proposed supplement, as it will appear in the CPS instrument, contains the same items that were in the 2012 ASEC instrument, with the exception that questions on current public assistance (Q96—Q97) are no longer included.

Affected Public: Individuals or households.

Frequency: Annually.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Section 182, and Title 29, United States Code, Sections 1-9.

OMB Desk Officer: Brian Harris-Kojetin, (202) 395-7314.

Copies of the above information collection proposal can be obtained by calling or writing Jennifer Jessup, Departmental Paperwork Clearance Officer, (202) 482-0336, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at jjessup@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Brian Harris-Kojetin, OMB Desk Officer either by fax (202-395-7245) or email (bharrisk@omb.eop.gov).

Dated: November 27, 2012.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: 2013 Current Population Survey Annual Social & Economic Supplement. Content Test.

OMB Control Number: None

Form Number(s): The automated survey instrument has no form number.

Type of Request: New collection.

Burden Hours: 10,000.

Number of Respondents: 15,000.

Average Hours Per Response: 40 minutes.

Needs and Uses: The Current Population Survey (CPS) Annual Social and Economic Supplement (ASEC) is used to produce official estimates of income and poverty, and it serves as the most widely-cited source of estimates on health insurance and the uninsured. These statistics have far-ranging implications for policy and funding decisions. Alternative sets of questions on income and health insurance have been developed and are now slated for a large-scale field test to evaluate the questions and the estimates they generate.

With regard to income, the CPS ASEC was converted to computer assisted interviewing (CAI) in 1994. This conversion, however, essentially took the questions and skips patterns of the paper questionnaire, and put them on a computer screen. Automated data collection methods allow for complicated skips, respondent-specific question wording, and carry-over of data from one interview to the next. The computerized questionnaire also permits the inclusion of several built-in editing features, including automatic checks for internal consistency and unlikely responses, and verification of answers. With these built-in editing features, errors can be caught and corrected during the interview itself. It has been more than 30 years since the last major redesign of the income questions of this questionnaire (1980), and the need to modernize this survey to take advantage of CAI technologies has become more and more apparent.

Regarding health insurance, the CPS ASEC health insurance questions have measurement error due to both the reference period and timing of data collection. Qualitative research has

shown that some respondents do not focus on the calendar year reference period, but rather report on their current insurance status. Quantitative studies have shown that those with more recent coverage are more likely to report accurately than those with coverage in the more past. A new set of integrated questions on both current and past calendar year status should produce more accurate estimates of past year coverage. This is because the current coverage status questions may serve as an anchor to elicit more accurate reports of past year coverage than the standard methodology.

In addition to making improvements to the core set of questions on health insurance, in 2014 the Affordable Care Act is set to go into effect. One of the main features of the ACA is the "Health Insurance Exchange." These are joint federal-state partnerships designed to create a marketplace of private health insurance options for individuals and small businesses. While these Exchanges are still in development and states have broad flexibility in designing the programs, it is essential for the federal government to have a viable methodology in place when the Affordable Care Act goes into effect to measure Exchange participation, and to measure types of health coverage (in general) in the post-reform era.

Lastly, the current health insurance status questions lend themselves to questions about whether an employer offers the employee health insurance. Although this set of questions is new to the CPS ASEC, it has been in CPS production in the Contingent Worker Supplement (CWS). The CWS was fielded in February of 1995, 1997, 1999, 2001 and 2005.

The CPS ASEC field test will be conducted by telephone from one or more of the Census Bureau's telephone data collection centers in March 2013 with retired CPS sample.

The primary purpose of the field study is to evaluate the redesigned questions and assess any improvements over the CPS ASEC status quo design. Based on the results of the content test, if results are favorable for the new instrument, changes may be implemented in the production CPS ASEC in 2014.

Affected Public: Individuals or households.

Frequency: One time only.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C., Section 182.

DEPARTMENT OF COMMERCE

International Trade Administration

Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("the Department") has received requests to conduct administrative reviews of various antidumping and countervailing duty orders and findings with October anniversary dates. In accordance with the Department's regulations, we are initiating those administrative reviews.

DATES: *Effective Date:* December 3, 2012.

FOR FURTHER INFORMATION CONTACT:

Brenda E. Waters, Office of AD/CVD Operations, Customs Unit, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230, telephone: (202) 482-4735.

SUPPLEMENTARY INFORMATION:

Background

The Department has received timely requests, in accordance with 19 CFR 351.213(b), for administrative reviews of various antidumping and countervailing duty orders and findings with October anniversary dates.

All deadlines for the submission of various types of information, certifications, or comments or actions by the Department discussed below refer to the number of calendar days from the applicable starting time.

Notice of No Sales

If a producer or exporter named in this notice of initiation had no exports, sales, or entries during the period of review ("POR"), it must notify the Department within 60 days of publication of this notice in the **Federal Register**. All submissions must be filed electronically at <http://iaaccess.trade.gov> in accordance with 19 CFR 351.303. See *Antidumping and Countervailing Duty Proceedings: Electronic Filing Procedures; Administrative Protective Order Procedures*, 76 FR 39263 (July 6, 2011). Such submissions are subject to verification in accordance with section 782(i) of the Tariff Act of 1930, as amended ("Act"). Further, in accordance with 19 CFR 351.303(f)(3)(ii), a copy of each request must be served on the petitioner and each exporter or producer specified in the request.

Respondent Selection

In the event the Department limits the number of respondents for individual examination for administrative reviews, the Department intends to select respondents based on U.S. Customs and Border Protection ("CBP") data for U.S. imports during the POR. We intend to release the CBP data under Administrative Protective Order ("APO") to all parties having an APO within seven days of publication of this initiation notice and to make our decision regarding respondent selection within 21 days of publication of this **Federal Register** notice. The Department invites comments regarding the CBP data and respondent selection within five days of placement of the CBP data on the record of the applicable review.

In the event the Department decides it is necessary to limit individual examination of respondents and conduct respondent selection under section 777A(c)(2) of the Act:

In general, the Department has found that determinations concerning whether particular companies should be "collapsed" (*i.e.*, treated as a single entity for purposes of calculating antidumping duty rates) require a substantial amount of detailed information and analysis, which often require follow-up questions and analysis. Accordingly, the Department will not conduct collapsing analyses at the respondent selection phase of this review and will not collapse companies at the respondent selection phase unless there has been a determination to collapse certain companies in a previous segment of this antidumping
