## DEPARTMENT OF JUSTICE

### Notice of Lodging of Proposed Consent Decree Under the Clean Water Act

On November 20, 2012, the Department of Justice lodged a proposed

Consent Decree with the United States District Court for the Southern District of Mississippi in the lawsuit entitled *United States and State of Mississippi v. City of Jackson, Mississippi*, Civil Action No. 3:12-cv-790 TSL.

The proposed Consent Decree would resolve certain claims under Sections 301, 309, and 402 of the Clean Water Act, 33 U.S.C. 1251, et seq. and under the Mississippi Air and Water Pollution Control Law (“MAWPCL”) (Miss. Code Ann. §§ 49–17–1 through 49–17–45), against the City of Jackson, Mississippi (“City” or “Jackson”), through the performance of injunctive measures, the payment of a civil penalty, and the performance of a Supplemental Environmental Project (“SEP”). The United States and the State of Mississippi allege that the City is liable as a person who has discharged a pollutant from a point source to navigable waters of the United State without a permit and, in some cases, in excess of permit limitations.

The proposed Consent Decree would resolve the liability of Jackson for the violations alleged in the complaint filed in this matter. To resolve these claims, Jackson would perform the injunctive measures as described in the proposed

Consent Decree. More specifically, the proposed Consent Decree will require Jackson to implement comprehensive injunctive relief to assess and rehabilitate a majority of its collection system within approximately 18 years to eliminate wet weather/capacity-related Sanitary Sewer Overflows (“SSOs”) and develop and implement specific management, operation, and maintenance (“MOM”) programs that EPA determined were missing or deficient. The goal of the injunctive relief required under the proposed Consent Decree is to ensure Jackson’s compliance with water quality standards and the Clean Water Act.

The publication of this notice opens a period for public comment on the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States & State of Mississippi v. City of Jackson, Mississippi*, D.J. Ref. No. 90–5–1–1–09841. All comments must be submitted no later than thirty (30) days after the publication date of this notice. #### **SUPPLEMENTARY INFORMATION:**

Regulations 29 CFR 95.52 and 97.41 codify ETA requirements for certain financial reporting. Various statutes, regulations, and/or individual grant agreements specify administrative cost limitation requirements. The associated reporting requirements are met with a line item for total administrative expenditures, providing a mechanism for assessing compliance with the requirements. The ETA uses the data collected to assess the effectiveness of ETA programs and to monitor and analyze the financial activity of its grantees. Pre-designed software is provided to the grantees to reflect the requirements of Form ETA-9130, so that required data is reported directly into the E-Grants Grantee Reporting System by grant recipients.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is

generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205-0461. The current approval is scheduled to expire on November 30, 2012; however, it should be noted that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional information, see the related notice published in the **Federal Register** on May 29, 2012 (77 FR 31641).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section by December 31, 2012. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0461. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,
