DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS–10457, CMS–10428 and CMS–10458]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the Agency’s function; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* New collection; *Title of Information Collection:* MAC Satisfaction Indicator (MSI) Participant Information Registration Form; *Use:* Section 1874(A)(b)(3)(B) of the Social Security Act requires that provider satisfaction be a performance standard for the work of Medicare Administrative Contractors (MACs). In order to gain provider feedback regarding their satisfaction with their MACs, we need to be able to contact the providers. Therefore, we need accurate contact information to: select from for a random sample, get the survey to the appropriate respondent, and increase response rates. The survey will not be added to this package; instead, it will be processed under a different control number via an Interagency Agreement. *Form Number:* CMS–10457 (OCN: 0938–New). *Frequency:* Yearly; *Affected Public:* Private sector (business or other for-profit and not-for-profit institutions). *Number of Respondents:* 150,000. *Total Annual Responses:* 150,000. *Total Annual Hours:* 2,500. (For policy questions regarding this collection contact Teresa Mundell at 410–786–

9176. For all other issues call 410–786–1326.)

2. *Type of Information Collection Request:* Extension of a currently approved collection; *Title:* PCIP Authorization to Share Personal Health Information; *Use:* On March 23, 2010, the President signed into law H.R. 3590, the Patient Protection and Affordable Care Act (Affordable Care Act), Public Law 111–148. Section 1101 of the law establishes a “temporary high risk health insurance pool program” (which has been named the Pre-Existing Condition Insurance Plan, or PCIP) to provide health insurance coverage to currently uninsured individuals with pre-existing conditions. The law authorizes HHS to carry out the program directly or through contracts with states or private, non-profit entities.

Reapproval of this package is being requested as a result of CMS, in its administration of the PCIP program, serving as a covered entity under the Health Insurance Portability and Accountability Act (HIPAA). Without a valid authorization, the PCIP program is unable to disclose information, with respect to an applicant or enrollee, about the status of an application, enrollment, premium billing or claim, to individuals of the applicant’s or enrollee’s choosing. The HIPAA Authorization Form has been modeled after CMS’ Medicare HIPAA Authorization Form (OMB control number 0938–0930) and is used by applicants or enrollees to designate someone else to communicate with PCIP about their protected health information (PHI).

Unless permitted or required by law, the Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule (§ 164.508) prohibits CMS’ PCIP program (a HIPAA covered entity) from disclosing an individual’s protected health information without a valid authorization. In order to be valid, an authorization must include specified core elements and statements.

CMS will make available to PCIP applicants and enrollees a standard, valid authorization to enable beneficiaries to communicate with PCIP about their personal health information. This is a critical tool because the population the PCIP program serves is comprised of individuals with pre-existing conditions who may be incapacitated and need an advocate to help them apply for or receive benefits from the program. This standard authorization will simplify the process of requesting information disclosure for beneficiaries and minimize the response time for the PCIP program.
