SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0719.

Title: Quarterly Report of Local Exchange Carriers Listing Payphone Automatic Number Identifications (ANIs).

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 400 respondents; 1,600 responses.

Estimated Time per Response: 3.5 hours (8 hours for the initial submission; 2 hours per subsequent submission—for an average of 3.5 hours per response).

Frequency of Response: Quarterly reporting requirement, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. sections 151, 154, 201-205, 215, 218, 219, 220, 226 and 276 of the Communications Act of 1934, as amended.

Total Annual Burden: 5,600 hours.

Total Annual Cost: N/A.

Privacy Impact Assessment: N/A.

Nature and Extent of Confidentiality: The Commission is not requesting respondents to submit confidential information to the Commission. If the respondents wish confidential treatment of their information, they may request confidential treatment under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this expiring information collection during this comment period to obtain the full, three year clearance from the Office of Management and Budget (OMB). The Commission is requesting approval for an extension (no change in the reporting and/or third party disclosure requirements). There is no change to the Commission's previous burden estimates.

The Commission adopted rules and policies governing the payphone industry under section 276(b)(1)(A) of the Telecommunications Act of 1996 (the Act) and established "a per call compensation plan to ensure that all

payphone service providers are fairly compensated for each and every completed intrastate and interstate call." Pursuant to this mandate and as required by section 64.1310(d) of the Commission's rules, Local Exchange Carriers (LECs) must provide to carriers required to pay compensation pursuant to section 64.1300(a), a quarterly report listing payphone ANIs. Without provision of this report, resolution of disputed ANIs would be rendered very difficult. Carriers would not be able to discern which ANIs pertain to payphones and therefore would not be able to ascertain which dial-around calls were originated by payphones for compensation purposes. There would be no way to guard against possible fraud. Without this collection, lengthy investigations would be necessary to verify claims. The report allows carriers to determine which dial-around calls are made from payphones.

Without this collection, lengthy investigations would be necessary to verify claims. The report allows carriers to determine which dial-around calls are made from payphones. The information must be provided to third parties. The requirement would be used to ensure that LECs and the carriers required to pay compensation pursuant to 47 CFR 64.1300(a) of the Commission's rules, comply with their obligations under the Telecommunications Act of 1996.

The data collected on FCC Form 502 helps the Commission manage the ten-digit North American Numbering Plan (NANP), which is currently being used by the United States and 19 other countries. Under the Communications Act of 1934, as amended, the Commission was given "exclusive jurisdictions over those portions of the North American Numbering Plan that pertains to the United States." Pursuant to that authority, the Commission conducted a rulemaking in March 2000 that the Commission found that mandatory data collection is necessary to efficiently monitor and manage numbering use. The Commission received OMB approval for this requirement and the following:

- (1) Utilization/Forecast Report;
- (2) Application for initial numbering resource;
- (3) Application for growth numbering resources;
- (4) Recordkeeping requirement;
- (5) Notifications by state commissions;
- (6) Demonstration to state commission; and
- (7) Petitions for additional delegation of numbering authority.

The data from this information collection is used by the FCC, state regulatory commissions, and the NANPA to monitor numbering resource utilization by all carriers using the resource and to project the dates of area code and NANP exhaust.

The Commission adopted a *Report and Order*, FCC 00–193, which required the Commission to take further action to further accelerate the development of competition in the local and long-distance telecommunications markets, and to further establish explicit universal service support that will be sustainable in an increasingly competitive marketplace, pursuant to the mandate of the Telecommunications Act of 1996.

The Commission requires the following information to be reported to the following entities under the Coalitions for Affordable Local and Long Distance Service (CALLS) Proposal: (1) Modified tariff filings with the Commission; (2) quarterly and annual data filings (line counts, price cap and revenue data); and (3) cost support information. In the USF/ICC Transformation Order, FCC 11–161, the Commission eliminated the remaining universal service data filings previously contained in this information collection. The burdens associated with those filings are being removed from this information collection.
