Abstract: The Clean Air Act (CAA) section 112(r)(7) required EPA to promulgate reasonable regulations and appropriate guidance to provide for the prevention and detection of accidental releases and for responses to such releases. The regulations include requirements for submittal of a risk management plan (RMP) to EPA. The RMP includes information on offsite consequence analyses (OCA) as well as other elements of the risk management program.

The Chemical Safety Information, Site Security, and Fuels Regulatory Relief Act (CSISFRRRA) required the President to promulgate regulations on the distribution of OCA information (CAA section 112(r)(7)(H)(ii)). The state and local agencies who decide to obtain OCA information must send a written request on their official letterhead to EPA certifying that they are covered persons under Public Law 106–40, and

that they will use the information for official use only. EPA will then provide OCA data to those agencies as requested. The rule authorizes and encourages state and local agencies to set up reading rooms. The local reading rooms provide read-only access to OCA information for all the sources in the Local Emergency Planning Committee's (LEPC) jurisdiction and for any source where the vulnerable zone extends into the LEPC's jurisdiction.

Form Numbers: None.

Respondents/affected entities: States, local agencies and members of the public.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 865.

Frequency of response: Annual, On Occasion.

Total estimated burden: 1,515 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$48,919 per year, includes \$65 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 7,815 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. There has been a decrease in the number of people visiting the reading rooms to obtain OCA data, therefore decreasing the burden on respondents to provide the data.

Title: NSPS for Flexible Vinyl and Urethane Coating and Printing (Renewal).

ICR Numbers: EPA ICR Number 1157.10, OMB Control Number 2060–0073.

ICR Status: This ICR is scheduled to expire on June 30, 2013. Under OMB regulations, the Agency may continue to either conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 60, subpart FFF. Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

Respondents/Affected Entities: Entities potentially affected by this action are the owners or operators of flexible vinyl and urethane coating and printing operations facilities.

Estimated Number of Respondents: 24
Frequency of Response: Initially and semiannually

Estimated Total Annual Hour Burden: 775. Burden is defined at 5 CFR 1320.3(b).

Estimated Total Annual Cost: \$297,664, which includes \$75,064 in labor costs, \$6,600 in capital/startup costs, and \$216,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is an overall increase in burden primarily due to an increase in the number of sources subject to the standard. There is also a corresponding increase in the total O&M costs because more sources are now subject to the standard. There are additional changes in both respondent and Agency burden estimates that are

attributed to the correction of mathematical discrepancies identified in the previous ICR.
