ENVIRONMENTAL PROTECTION AGENCY

[Docket ID No. EPA-HQ-OAR-2012-0452; FRL-9811-1]

EPA Activities To Promote Environmental Justice in the Permit Application Process

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of regional actions to promote public participation in the permitting process and promising practices for permit applicants seeking EPA-issued permits.

SUMMARY: As part of its ongoing efforts under Plan EJ 2014 to integrate environmental justice into all of its programs, the Environmental Protection Agency (EPA) is publishing *Actions that EPA Regional Offices Are Taking to Promote Meaningful Engagement in the Permitting Process by Overburdened Communities and Promising Practices for Permit Applicants Seeking EPA-Issued Permits: Ways to Engage Neighboring Communities*. This notice responds to comments on the proposals issued for public comment in June 2012. These documents reflect suggestions and input received by EPA from numerous stakeholders. This notice describes actions that EPA regional offices are taking when issuing EPA permits to promote greater participation in the permitting process by communities that have historically been underrepresented in that process. This notice also describes promising practices for permit applicants that are designed to encourage and assist permit applicants to reach out to neighboring communities when applying for permits that may affect communities' quality of life, including their health and environment.

FOR FURTHER INFORMATION CONTACT: For more information on this **Federal Register** notice, contact Shani Harmon, Office of Air and Radiation, Mail Code 6102A, U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460, (202) 564-1617, ejpermitting@epa.gov.

I. General Information

Expanding the conversation on environmentalism and working for environmental justice are top priorities of the Environmental Protection Agency (EPA). In 2011, EPA published Plan EJ 2014, the Agency's overarching strategy for advancing environmental justice. The Plan has three goals:

1. Protect health and the environment in overburdened communities;
2. Empower communities to take action to improve their health and environment; and
3. Establish partnerships with local, state, tribal, and federal governments

and organizations to achieve healthy and sustainable communities.

The year 2014 marks the 20th anniversary of the signing of Executive Order 12898, *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations*. That Executive Order directs each covered federal agency to "make achieving environmental justice part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of its programs, policies, and activities." Plan EJ 2014 is EPA's roadmap for integrating environmental justice into its programs, policies and activities. One focus area of the Plan is "Considering Environmental Justice in Permitting." Environmental permits often contain measures to mitigate pollution from a source. Therefore, environmental permits play a key role in providing effective protection of public health and the environment in communities. For this reason, Plan EJ 2014 calls upon EPA to: (1) Enhance the ability of overburdened communities to participate fully and meaningfully in the permitting process for EPA-issued permits; and (2) take steps to meaningfully address environmental justice issues in the permitting process for EPA-issued permits to the greatest extent practicable.

In this notice, EPA focuses on enhancing the opportunity and ability of overburdened communities to participate in the permitting process. Plan EJ 2014 uses the term "overburdened" to describe the minority, low-income, tribal and indigenous populations or communities in the United States that potentially experience disproportionate environmental harms and risks due to exposures or cumulative impacts or greater vulnerability to environmental hazards. This increased vulnerability may be attributable to an accumulation of both negative and lack of positive environmental, health, economic, or social conditions within these populations or communities. EPA believes that the participation of overburdened communities in EPA's permitting process is an important step toward the ultimate goal of promoting environmental justice through the permitting process. EPA realizes that enhanced public engagement is only one aspect of addressing environmental justice in the context of permitting. As part of the Plan EJ 2014 initiative, EPA also intends to enhance its analysis of environmental justice impacts associated with permits and identify additional measures that can be
